Note:

- For any columbarium to be considered as an 'existing use' under the statutory plan, it must be a use in existence before the gazetting of the first statutory plan and has continued since it came into existence. The date of the gazetting of the first statutory plan could be found in the Explanatory Statement of the statutory plan. It is the responsibility of the operator to prove its columbarium as an "existing use".
- Under the Town Planning Ordinance, the Planning Authority may only take enforcement and regulatory actions in respect of land use in areas covered by the Development Permission Area Plans (i.e. rural areas in the New Territories).
- There is no guarantee that the planning and/or lands applications set out in the Information will be approved.
- The Government or the holder(s) of the relevant licence/permit/short term tenancy/short term waiver can at any time serve a 1 to 3 month's termination notice (the period of notice depends on the conditions specified in the relevant licence/permit/tenancy/waiver) to terminate the relevant licence/permit/short term tenancy/short term waiver. Any person intends to deposit human remains in the premises ought to check and confirm with the operator about the arrangement for the removal of human remains if in case such termination notice is served.
- This surveyed structure is only being tolerated temporarily. The squatter control survey number can be cancelled and the surveyed structure be cleared at any time by the Government. Any person intends to deposit human remains in the premises ought to check and confirm with the operator about the arrangement for the removal of human remains if in case the surveyed structure is being cleared.
