Your opinion	Brownfield sites need to be used first. Failure to do this will simply lead to the "bleeding" of degradation from any Country Park developments, even those on the edges into the country parks and the creation of more degraded land which will then, it will be argued be of low ecological value and therefore can be used for commercial purposes. This "creeping degradation": waste dumping, flattening, parking and finally commercial premises is the standard strategy employed by unscrupulous groups to degrade high ecological value sites to enable further cash extraction at the cost of the people and other species in Hong Kong. Therefore, these sites already degraded by such methods should be used first.

Your opinion	<p>Some of the brown fields chop down trees of the land and pollute the nearby environment and unlawfully occupy the government land. Business stakeholders of many of the brown field businesses don't contribute back to the community from their revenue but would definitely request for huge amount of compensation if the government claims the land back.</p>

Submission Date29 05 2018 19:32:54

I urge the government to adopt a “brownfield first” policy to address short term housing problems.
I urge the government to safeguard the integrity of Hong Kong’s incredible country parks, to prevent irreversible damage to our natural areas.
I urge the government to safeguard vulnerable marine habitats and species by not reclaiming any ecologically sensitive areas.
I urge the government to formulate an agricultural land compensatory mechanism to release lands with good potential for rehabilitation if privately owned agricultural land with lower agricultural and ecological value is identified for development.

Your opinion	<p>Hong Kong is a densely populated city. People need our country parks for relaxation from urban stress. I noticed that the numbers of hikers and campers on South Lantau has continuously increased over the last 16 years when we moved here. It would be absolutely irresponsible of our Government to destroy such natural beauty unnecessarily when there are other options for land supply like brown fields available!</p>

Your opinion	<p>There is plenty of land available for new housing and, more importantly, mixed use development. There are hectares and hectares of land with empty old industrial buildings sitting on it. these buildings could be converted to high quality housing, offices, workshops and retail centers just by the government waiving land premiums and allowing re purposing of the buildings. This is what the government should do.</p>
	I agree

Your opinion	Encroaching on the country parks would destroy Hong Kong's green spaces and natural lungs. There is zero reason to do this if brown field sites are resumed and properly developed.

I urge the government to adopt a “brownfield first” policy to address short term housing problems.
I urge the government to safeguard the integrity of Hong Kong’s incredible country parks, to prevent irreversible damage to our natural areas.
I urge the government to safeguard vulnerable marine habitats and species by not reclaiming any ecologically sensitive areas.
I urge the government to formulate an agricultural land compensatory mechanism to release lands with good potential for rehabilitation if privately owned agricultural land with lower agricultural and ecological value is identified for development.

I urge the government to adopt a “brownfield first” policy to address short term housing problems.
I urge the government to safeguard the integrity of Hong Kong’s incredible country parks, to prevent irreversible damage to our natural areas.
I urge the government to safeguard vulnerable marine habitats and species by not reclaiming any ecologically sensitive areas.
I urge the government to formulate an agricultural land compensatory mechanism to release lands with good potential for rehabilitation if privately owned agricultural land with lower agricultural and ecological value is identified for development.

Your opinion	<p>請政府從善如流，接納「本土研究社」搜集得來的資料及數據及一眾民間組織與香港市民的意見，將香港的珍貴土地資源公平分配及有效利用。自然生態環境及農地一經破壞會影響深遠，對香港毫無益處。應該要保護的土地卻因貪得無厭沒節制的過度開發，得益的祇是一小部份既得利益者而不是急切需要住屋的基層及香港市民，若政府願意捨難取易，解決香港嚴重的房屋問題，相信將指日可待。</p> <p>本人十分同意以下「本土研究社」的建議，希望土地供應專責小組能夠接納：</p> <p>「棕地、鄉村式發展地帶內官地、短期租約用地及臨時政府撥地等，合共有超過1,000公頃可供政府考慮發展。陳劍青續指，短期租約用地、臨時政府撥地等的業權屬於政府，合約期滿後可立即收回；相反，政府將需要15至18年才能在綠化地如郊野公園完成造地工程。</p> <p>本土研究社成員黃肇鴻建議政府收回粉嶺高爾夫球場土地並立刻發展，他指高球場有172公頃平地，比發展郊野公園的成本低，估計發展高球場的每公頃成本為0.5億，發展郊野公園的平整成本則需要每公頃4.3億元。」</p> <p>I do not agree</p>
