**Chunman Chan** 對土地供應選項及相關議題的意見

29/06/2018 03:16

From:

To:

tfls@devb.gov.hk

先用棕地，糾正規劃問題

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

政府不應發展郊野公園兩個試點作為中長期選項，不應研究郊野公園邊陲地帶其他地點，亦不應考慮在維港以外填海，因為填海將破壞海洋生態。

本人希望土地供應小組向政府反映本人意見，保護香港的自然環境。

敬祝安好！

Chunman Chan 謹啟

土地供應的選項不應包括郊野公園邊陲地帶和填海

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。

政府不應發展郊野公園兩個試點作為中長期選項，不應研究郊野公園邊陲地帶其他地點，亦不應考慮在維港以外填海，因為填海將破壞海洋生態。

請土供組如實向特首林鄭月娥反映市民訴求，規劃棕地，保護郊野邊陲地帶。 萬分感謝！

敬啟者：

你好！

本人才疏學淺, 不足之處敬請見諒! 作為香港土生土長之中青年人, 很希望重拾香港和諧的生活, 看到長者與新一代及自身之經歷, 基於房屋店舖租金, 令社會民生產生很多家庭問題, 甚至悲劇, 懇請閣下參詳本人構想, 為我們上下一代重建東方之珠, 承傳獅子山下互愛互助精神, 大愛感激不盡!

以下是本人歷練啟發得到的構思, 請參

1. 將短期租賃土地作為居住樓宇, 及多層小型店舖商用中心及短暫老人、幼兒看護協助服務。
2. 新規劃用地設計方式, 就可利用範圍設計不同之樓型, 例如: 根據面積可參考舊式工字型、回字型或單幢排列, 務求善用空間, 前後座設計綠化內園, 內園建綜合型多層商場、老人、幼兒、社福、民政、社區中心。
3. 撥款方面, 除政府撥款及管理外, 商場可向市民發有關公共基金承租並半支助老人、幼兒暫管服務, 由政府管理控制租金上限, 條款是持有者不可租用或居住, 舒緩房產帶來之現今多種社會民生問題。
4. 此類新型房屋, 可買賣, 購買若干年後, 例如15年政府回購限制百份比之價值, 或自住15年後, 限制租金出租給自由市場5年或基金承租再出租市場, 由20年後以原價回購, 或永久居住。
5. 政府及基金共同在市場上購買土地並興建房屋。
6. 利用天橋加建建香港特色行人道小食攤檔, 生活用品, 吸引遊客, 保留香港文化, 解決小商戶生活問題。

以下是本人一些手畫構思 IMG\_20180630\_232847.jpg

Sample:

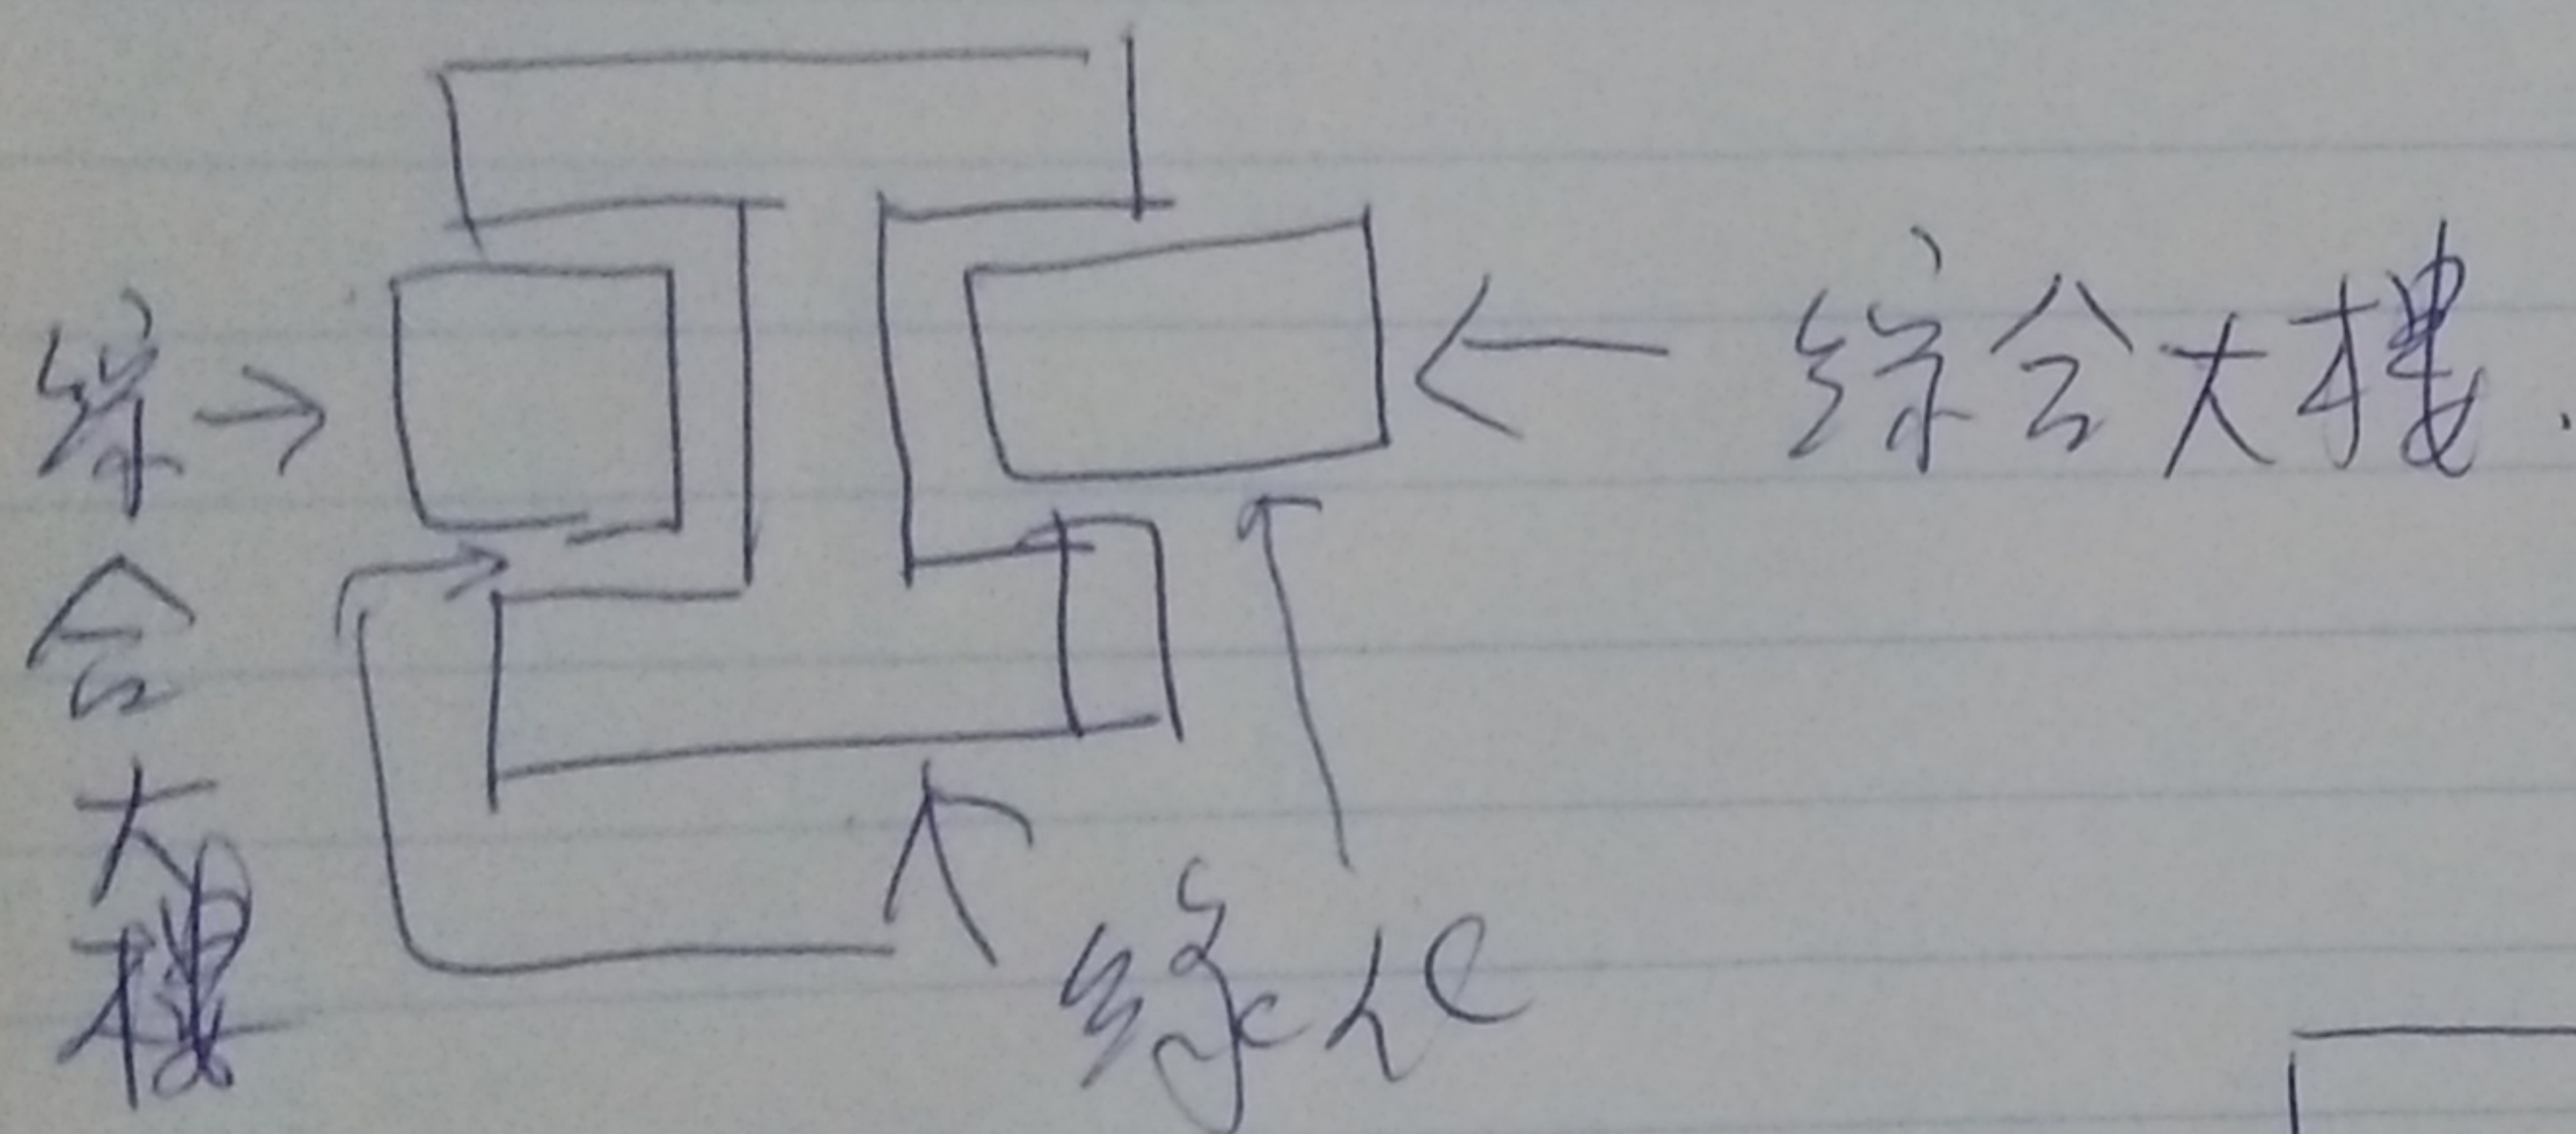

單中樓

← 綜合大樓外牆綠化

可用之稿接致，視乎綜合大樓之層數。  
樓梯

元朗橫台山的七十一公頃棕地被納入發展計劃但政府難以收地

to: tfls@devb.gov.hk

30/06/2018 16:38

香港添馬添美道2號政府總部西翼17樓  
土地供應專責小組秘書處  
電郵地址：tfls@devb.gov.hk

日期：二零一八年六月三十日

**有關：元朗橫台山的七十一公頃棕地被納入發展計劃但政府難以收地**

本人莊儉華過往年多時間以獨立第三方人仕代表元朗橫台山地區眾多土地擁有人向城規會申請發展規劃申請。而眾多土地擁有人及祖堂司理在知悉報章有關元朗橫台山的七十一公頃棕地被納入發展計劃表示歡迎。現時元朗橫台山的棕地發展委實並無統一及恰當計劃，祖堂司理在出租土地後並無權管理，常因為承租人違例發展引致被執行土地法例及上庭，祖堂司理過往亦曾交付超過百萬罰款。

本人受托於元朗橫台山的祖堂司理及眾多土地擁有人，現向土地供應專責小組秘書處呈請發展元朗橫台山棕地的可行性及徵詢與土地供應專責小組商討會議的可能。

過往橫台山的祖堂亦曾以顧問形式協調過高鐵石崗車廠的收地，而現今政府有意發展毗鄰露天倉地，祖堂及區議員辦事處是歡迎收地，以新發展規劃取代現有雜亂的棕地現況。

我等具備誠意以對待新的土地規劃，亦希各土地供應專責小組執事同寅莫以一蓋全，完全排除上述可行性。

敬候貴處回覆為盼

莊儉華

建議政府利用公路及鐵路沿線上蓋建屋

to: tfls@devb.gov.hk

30/06/2018 10:22

Please respond to [REDACTED]

逕啟者：本人是一個在香港出生已[REDACTED]歲的老人。政府覓地建屋利民，總被利益者及政棍阻撓，本人建議政府可否利用新界高速公路及東線鐵路沿線上蓋建屋，如現時藍田地鐵滙景及沙田銀禧花園。政府可選擇沿線較滿的適當位置，相隔一段距離在兩旁建牆加高，在上蓋建屋，不影响下層行車。希望政府堅持增建平價房屋，利民解困，同時政府建公屋時，每單位除有獨立廚房及廁所浴室，內籠廳房由買家自行間隔，也可減低樓價成本。謝謝

**Srinivas Padmasola's suggestions on Land Supply - Country Parks should never be an option for development**

30/06/2018 23:38

From: [REDACTED] To: [tfls@devb.gov.hk](mailto:tfls@devb.gov.hk)

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Srinivas Padmasola

**Alexandra Mount's suggestions on Land Supply - Country Parks should never be an option for development**

30/06/2018 22:24

From: [REDACTED] To: [tfls@devb.gov.hk](mailto:tfls@devb.gov.hk)

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Alexandra Mount

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Chris Perkins

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Rousseau Anai

Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Aurianne Ricquier

**Claire Ollivier's suggestions on Land Supply - Country Parks should never be an option for development**

30/06/2018 08:52

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Claire Ollivier

**Kam Man Chan's suggestions on Land Supply - Country Parks should never be an option for development**

30/06/2018 00:54

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Kam Man Chan

30/06/2018 23:58

From: [REDACTED] To: tfls@devb.gov.hk

郊野公園邊陲地帶和填海都不應成為發展和土地供應的選項

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府必須優先使用棕地和私人遊樂場地契約用地，有研究已經指出，香港的棕地及粉嶺高爾夫球場等已經足以應付香港未來的房屋需求。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個 涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港 市民難得的叫氣地方。

衷心希望土地供應小組接納意見，要求政府改善規劃，保護珍貴的自然環境。

謝謝！

郊野公園邊陲地帶和填海都不應成為發展和土地供應的選項

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性 選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

請土供組如實向特首林鄭月娥反映市民訴求，規劃棕地，保護郊野邊陲地帶。

祝願 閣下生活愉快！

改善規劃，用好棕地

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局必須首先善用棕地，及私人遊樂場地契約用地，釋放現有的土地資源。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

請土地供應小組尊重民意，為香港市民保護自然環境。

敬祝安好！

Lawrence 謹啟

善用棕土，不應發展郊野公園邊陲地帶和填海

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港 市民難得的叫氣地方。

衷心希望土地供應小組接納意見，要求政府改善規劃，保護珍貴的自然環境。 萬分感謝！

**Alexis wong** 對土地供應選項及相關議題的意見

30/06/2018 01:16

From:

To:

tfls@devb.gov.hk

改善規劃，用好棕地

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

懇請土地供應小組聽取民意，令香港真正可持續發展。

順祝 台安！

Alexis wong 謹啟

改善規劃，用好棕地

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個 涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港 市民難得的叫氣地方。

本人希望土地供應小組向政府反映本人意見，保護香港的自然環境。

祝 安好！

Pumil Chan 謹啟

**Chan Wai Yi** 對土地供應選項及相關議題的意見

30/06/2018 00:30

From: [REDACTED] To: tfls@devb.gov.hk

愛護自然，不應發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。

政府不應發展郊野公園兩個試點作為中長期選項，不應研究郊野公園邊陲地帶其他地點，亦不應考慮在維港以外填海，因為填海將破壞海洋生態。

本人期望土地供應專責小組能真的能保護我們的環境，也能讓市民安居樂業。

順祝 生活愉快！

Chan Wai Yi 謹啟

土地供應的選項不應破壞自然和郊野，包括填海和郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性 選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

懇請土地供應小組聽取民意，令香港真正可持續發展。

祝 安好！

Mary Ip 謹啟

增加土地供應的建議：公務員建屋合作社樓宇重建

to: tfls@devb.gov.hk

01/07/2018 11:42

依據 [http://www.legco.gov.hk/yr15-16/chinese/panels/dev/dev\\_cbs/reports/dev\\_cbscb1-1078-c.pdf](http://www.legco.gov.hk/yr15-16/chinese/panels/dev/dev_cbs/reports/dev_cbscb1-1078-c.pdf) 所講:本港至今已有合共238個合作社成立。合作社負責管理及 維修在全港佔地總面積約為 30公頃的合作社樓宇。根據合作社與其社員各自簽訂的分租租契，合作社社員有權使用有關單位，但並不擁有該等單位的法定業權。鑒於合作社要求，亦為使合作社樓宇的法定業權可轉讓予個別合作社社員及解散合作社，政府當局在 1987年推出了《交回及重批辦 2 法指引》1。該指引在1993年由現行安排(即《修訂官地租契辦法指引》2)取代。根據《修訂官地租契辦法指引》，合作社只要得到75%的社員同意，便可申請解散。個別合作社社員繼而可透過轉讓契據取得其物業及土地的業權。據政府當局所述，截至 2016年5月31日，在238個合作社當中，有187個已經解散，51個尚未解散。在已解散的187個合作社當中，12個合作社的樓宇已重建或正在重建。在2013年陳茂波向立法會匯報若重建全部合作社可增加 2 萬個中型住宅單位。重建 數量之低在於補地價及收購過程之復雜，單一的合作社發展力不大；聯合發展又遇到部份合作社未解散；又或社員未能承擔巨額的補地價後才可出售單位。維修此等舊樓宇方面，由樓案是由公務員建屋合作社持有，即社員並非該物業的業主。因此，不能符合長者維修自住物業津貼計劃的申請資格，足以証明，合作社社員被分類標籤，被摒出政府資助維修計劃，可見一斑。公務員樓缺乏維修，不無道理。至於市區重建局及房屋協會的 "先導重建合作社方案" 等同空談!如能達到佢哋嘅要求，合作社已可自行搵發展商傾，無須中間再被收費!最理想的做法是由政府收回合作社發展，盡用土地。收購方面可考慮現金收購或用居屋以一摸一。

**Susan Lee's suggestions on Land Supply - Country Parks should never be an option for development**

01/07/2018 23:48

From: [REDACTED] To: [tfls@devb.gov.hk](mailto:tfls@devb.gov.hk)

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Susan Lee

**Isabelle Dupin's suggestions on Land Supply - Country Parks should never be an option for development**

01/07/2018 21:54

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Isabelle Dupin

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Kit Ching Li

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Paul Daly

**Alex Thistlethwaite's suggestions on Land Supply - Country Parks should never be an option for development**

01/07/2018 15:58

From: [REDACTED] To: [tfls@devb.gov.hk](mailto:tfls@devb.gov.hk)

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Alex Thistlethwaite

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Nicole Dainton

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Jason Curran

Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Yukie Yeung

**Julis Griffiths's suggestions on Land Supply - Country Parks should never be an option for development**

01/07/2018 10:14

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Julis Griffiths

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Rachel Lim

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Kerstin James

**Angela Li** 對土地供應選項及相關議題的意見

01/07/2018 23:44

From:

To:

tfls@devb.gov.hk

土地供應的選項不應破壞自然和郊野，包括填海和郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個 涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港 市民難得的叫氣地方。

請土地供應小組尊重民意，為香港市民保護自然環境。

順祝 台安！

**Kart Lee** 對土地供應選項及相關議題的意見

01/07/2018 21:30

From:

To:

tfls@devb.gov.hk

郊野公園邊陲地帶和填海都不應成為發展和土地供應的選項

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

希望土地供應小組聆聽民意，促請政府改善規劃，令市民真正安居樂業。

感謝！

Kart Lee 謹啟

**Olivia Yu** 對土地供應選項及相關議題的意見

01/07/2018 18:54

From: [REDACTED] To: tfls@devb.gov.hk

土地供應的選項不應包括郊野公園邊陲地帶和填海

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

請土供組回應香港人的訴求，優先發展粉嶺高球場，解決基層上樓問題。

謝謝！

Olivia Yu 謹啟

**Opinion on land supply**to: [tfls@devb.gov.hk](mailto:tfls@devb.gov.hk)

02/07/2018 23:35

Dear Sir/Madam,

I have just submitted a questionnaire on land supply options online. However, there isn't a section in which I can provide additional comments. So I am writing this email to add to the questionnaire. The land problem under discussion originates from an imbalance of land demand and supply. However, our Hong Kong government chooses to divert our citizens' attention to the supply side and assumes that the problem comes solely from the shortage of land supply. This is obviously misleading. The land supply need detailed online is estimated using certain assumption on population growth. The land area of Hong Kong is more or less fixed at least in the shorter term, but population of Hong Kong has been growing rapidly during the past 10-20 years due to immigrants from the Mainland China under various immigration programmes and the 150 daily one-way permit. Is Hong Kong able to absorb non-stop and ever-growing number of immigrants? Is this sustainable? Do the benefits of these immigration programmes justify the cost? Is this in the best interest of the Hong Kong people as a whole? Can we solve the land problem without addressing the demand side? All these are questions a responsible government shall ask itself before pushing its citizens to choose the said land supply options. Like many other Hong Kong citizens, I would like to request the Hong Kong government to control its immigrant numbers and initiate discussion with the Mainland government to regain control in deciding who from the Mainland shall be given the right of abode.

Regards,  
Elsa Chan, a Hong Kong citizen

## Land use in HK

to: tfls@devb.gov.hk

02/07/2018 21:33

I have been following the efforts of the Task Force to consult the public on ways to resolve the current land shortage.

My parents lived here during the fifties and sixties- and were active sporting members of the HKFC and LRC- I was born here in 1965. We moved to the UK in 1968. I returned to HK in 1993 and have lived in HK since then. As a keen rower i joined the RHKYC at that time. The club is well known for its sailing activities, holding international sailing events etc. My passion is rowing.

It has actively been involved in supporting rowing. Members of the RHKYC founded the HKARA in 1978- the National Sports Association - now known as the HKCRA. The RHKYC was the first club to buy coastal rowing boats in HK and actively supported growth of the sport by holding the HK Coastal Rowing Champs. It supported the set up of coastal rowing at Discovery Bay by donating boats etc to Lantau Boat Club.

When the HKUST were considering buying coastal rowing boats three or four years ago- RHKYC club members helped support training courses for students and alumni at Middle Island for more than 40 participants. When the boats arrived club members supported the first rowing outings by providing coaching and leadership at the HKUST venue in Saikung. The club initiated the successful bid to bring the World Coastal Rowing Champs to HK in 2019. It has also represented HK in various World Coastal Rowing champs- in Italy, Sweden, and elsewhere. this will be the first time the championships will be held in Asia. Later this year the club will assist the HKCRA in hosting the Asian Coastal Rowing Champs.

There are no Government LCSD managed coastal rowing facilities and the club runs coastal rowing from Middle Island and Kellett Island. It has run two successful Harbour Coastal regattas in 2017 and 2018.

The club has several initiatives to encourage participation from the community- these include- courses, Elite Rowing Programme for the universities. Three of the squad that attended the recent Asian Junior Rowing champs were from this programme sponsored by the club. It acts as a talent feeder to the national squad.

Club entrance fees can be seen as a barrier to entry and the club has set up several programmes to allow athletes to join- such as junior membership, Student Usage Card, schools rowing programmes etc. This allows entry and usage of the club facilities to the community.

To promote Hong Kong as an international venue for coastal rowing - the club runs the Around the Island Race every year. In 2017 more than 300 overseas rowers and paddlers participated. From countries such as the US, Spain, Singapore etc. Also as mentioned it will be hosting the 2018 Asia Coastal Champs and 2019 World Coastal champs in partnership with the HKCRA.

Therefore I believe the club is very active in developing the sport of rowing and sailing in HK by encouraging the community to be involved.

In general- I believe HK needs to treasure the sporting venues it has- whether they are golf courses, sailing/rowing venues, cricket, football and support and encourage these clubs and associations wherever possible. They are a recreational outlet for people and provide an opportunity to enjoy HK.

Obviously there is a land shortage- but I believe focussing on the 'brownfield sites',

reviewing the land usage by the PLA, penalising developers who are hoarding flats and land to reduce supply would result in larger areas being identified and converted for residential purposes thus allowing the retention of the existing sporting facilities to be used by the local community.

I would be happy to discuss this in more details.

Regards

Martin Reynolds

Re: 增加土地供應的建議：公務員建屋合作社樓宇重建

to: tfls@devb.gov.hk

02/07/2018 11:21

## 補充:

單一的公務員建屋合作社雖然地積小，但都是位於市區，更減省了社區配套的考量，又縮短了覓地、開墾、收地賠償的時間，節省的金錢遠比周璇於一個死結(公務員建屋合作社補地價事宜)多!

收回的土地可於短時間內作公營或私營房屋的用途。此正能解決特首常掛在口邊"重中之重"短期覓地建屋的問題!

現今政府應視此良機，一起解決兩個難題!

BR

TSANG C K [REDACTED] 於 2018年7月1日 週日 上午11:41寫道：

依據

[http://www.legco.gov.hk/yr15-16/chinese/panels/dev/dev\\_cbs/reports/dev\\_cbscb1-1078-c.pdf](http://www.legco.gov.hk/yr15-16/chinese/panels/dev/dev_cbs/reports/dev_cbscb1-1078-c.pdf) 所

講:本港至今已有合共238個合作社成立。合作社負責管理及維修在全港佔地總面積約為 30公頃的合作社樓宇。根據合作社與其社員各自簽訂的分租租契，合作社社員有權使用有關單位，但並不擁有該等單位的法定業權。鑒於合作社要求，亦為使合作社樓宇的法定業權可轉讓予個別合作社社員及解散合作社，政府當局在 1987年推出了《交回及重批辦 2 法指引》1。該指引在1993年由現行安排(即《修訂官地租契辦法指引》2)取代。根據《修訂官地租契辦法指引》，合作社只要得到75%的社員同意，便可申請解散。個別合作社社員繼而可透過轉讓契據取得其物業及土地的業權。據政府當局所述，截至 2016年5月31日，在238個合作社當中，有187個已經解散，51個尚未解散。在已解散的187個合作社當中，12個合作社的樓宇已重建或正在重建。在2013年陳茂波向立法會匯報若重建全部合作社可增加 2 萬個中型住宅單位。重建數量之低在於補地價及收購過程之複雜，單一的合作社發展力不大；聯合發展又遇到部份合作社未解散；又或社員未能承擔巨額的補地價後才可出售單位。維修此等舊樓宇方面，由樓案是由公務員建屋合作社持有，即社員並非該物業的業主。因此，不能符合長者維修自住物業津貼計劃的申請資格，足以証明，合作社社員被分類標籤，被摒出政府資助維修計劃，可見一斑。公務員樓缺乏維修，不無道理。

至於市區重建局及房屋協會的"先導重建合作社方案"等同空談!如能達到佢哋嘅要求，合作社已可自行搵發展商傾，無須中間再被收費!

最理想的做法是由政府收回合作社發展，盡用土地。收購方面可考慮現金收購或用居屋以一摸一。

**Vienna Yick's suggestions on Land Supply - Country Parks should never be an option for development**

02/07/2018 23:48

From: [REDACTED] To: [tfls@devb.gov.hk](mailto:tfls@devb.gov.hk)

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Vienna Yick

**Manna Li's suggestions on Land Supply - Country Parks should never be an option for development**

02/07/2018 23:20

From: [REDACTED] To: [tfls@devb.gov.hk](mailto:tfls@devb.gov.hk)

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,  
Manna Li
