Aimee Pang's suggestions on Land Supply - Country Parks should never be an option for development

03/07/2018 00:30

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Aimee Pang

改善規劃，用好棕地

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶），及在維港以外近岸及東大嶼填海，不能被視為增加土地的選項，當局亦應小心處理農地等其他天然資源，因為我們 要尊重大自然。

衷心希望土地供應小組接納意見，要求政府改善規劃，保護珍貴的自然環境。 萬分感謝！

LAM WAI CHUNG 謹啟

光復土地的自然和公益屬性天經地義

由香港行政長官委任：22名非官方成員及8名官方成員，成立了任期一年半的土地供應專責小組（簡稱專責小組）。三十名成員來自規劃、工程、建築、測量、環境、學術、智庫、社會服務、房屋發展及地區行政的代表，

專責小組頗規模，成員在業務上是駕輕就熟的行家里手；很快就列舉出香港地域有潛力提供額外土地供應的18個選項，選項分別為：短中期、中長期、概念性選項，進行以「土地匱乏，如何解決？增闢土地，你我扶擇！」的公眾參與活動，期望凝聚社會共識，就土地供應策略向香港政府提交建議。

在此次公眾活動中，組織者流露着打工交差的心態，所羅列的資料內容大都是政府部門已有的資料，「土地供應專責小組認為，香港長遠欠缺的不單只是1,200公頃土地，實際短缺遠較此數字為高。」實際缺多少？小組是有責任弄清楚的；政府真要解決問題，必然要^有切合實際

的理據和數據；理、數據要到達切際的水平，專責小組先要有合理可行的短、中、長期規劃在手，通徹者則專心致遠，平衡遠近，所出方案切實可行。

土地短缺衍生的民生問題不全是土地短缺造成的，是人類及其社會對土地的自然屬性和土地的公益屬性不知、一知半解、解之模糊，更甚者著意模糊，至使土地的自然、公益屬性失落而衍生成為民生、社會問題。這就是問題的真相，也是問題癥結之所在。

為何說土地的自然、公益屬性的失落是民生問題的癥結所在呢？人們只要對與此問題相關聯的元素進行分析，平衡元素在存在中起到的作用，關聯通了，就自會明白了。

與問題相關聯的元素主要的是天、地、人。現把析、衡所論簡述如下：

天者空也，空以虛為玄在，虛以元素間的空間為實在。天有包容之大德。人、地無空則為無在。

地土也，土是各種化學元素聚合之物質。

地球之地容載萬物，在陽光普照下孕育各種生命。地有容育生命之恩德。天地同在，運行規律自然，則人三生有幸。

人動、衣、食、住、行者也。自地球有生命，出現人類，他們在大地這個轉盤裏全都獲得自然的、公益的、相當充足的生活享受。人類的生命活動、生產勞動，食物、衣着、住所、行走、出行、行動全仰賴着大地的產出和在地上實行、實現。人的生命離不開土地，對土地的需要是剛性的，是不容置疑的。在人人都能夠享受大地自然公益的時期，在有文字記載的史料上未發現亂世的大事記；相反，當大多數人失去大地自然公益的享受時，在史料上都留下各朝代的大事記。土地自然公益屬性失落衍生為民生問題歷來如此，確實如此。

在土地基數已定，一地（方）人口越來逾甚，社會、政府維持土地的自然、公益屬性逾重要。土地失落自然、公益屬性，必定是人為公害。人多有聖善之德，

天地人和萬事興，三德和合千秋盛。

簡析至此，問題知癥結所在，關聯已晰。
土地自然、公益屬性的失落是人為的失落且是
部分的失落，是能夠人為恢復的失落。失落自
然、公益屬性的土地面積佔比約在5%左右，其
造以的社會矛盾大家有目共睹和心知肚明。

在本文，土地的自然、公益屬性被多次提
及，它存在有什麼作用？回答是：土地自然、
公益屬性的存在作用是平衡每個生命體存在的
能量源泉；是存在裏的內在能量，內在能量能
在元素——土地和生命體之間完成轉換並表現
出來。被人知曉應用。人能用上存在中的內在
能量是其智慧的表现。

香港住房現實問題是「貴、細、擠」；用
理衡度，有貴、細、擠三個元素，細、擠元素
關聯擊密可作為一個問題來回答解決；回答是
：設立一個公認合理、有法可依的自然公益的
居住面積準則去解決；在香港恢復自然、公益
屬性居住使用面積：一個人 25M^2 並定為入基準
單位，家庭戶（2~4人） 75M^2 ；這是個可取
的標準。剩下「貴」的問題，居住面積的樓價

可分為兩部分計價，全符自然公益標準內的面積按公益價，超出標準的面積按市場價加起用公益面積計價。日後起用公益面積部分者還要每年繳交通費的費用，用繳交款項對少用公益者給予適度的補償平衡，以亦公允。繼而發展、完善社會整個公益系統。以公益主持、持續公道。

以上所言僅僅是依理構思的一部分，若以為可行，則應更全面收集細研資料至透，平衡全局，政策過渡通暢平順，鼓勵向上進取，預防消極極端，實施方案平衡至中正而後行。行必果。防不測。

俗話：說事容易做事難；今說：難者不會理，會理者不難。世事之難，難在入難為人，世事不難，是人不難為人也。

說事難，話難事，當數在美國無常的無所不至發生的槍擊案，枉死枉傷者數字驚人。近些年尤甚。在美國內立法控槍却受制於與槍徒緣的利益集團及其槍文化的歷史；槍、搶、殺害人也。美國有些人真是到了利令智昏的程度。

人不智昏，不難發現：槍擊死、傷人的元
素有：人、槍、子彈，子彈是直接致人傷亡的
元素。子彈的殺傷威力是人為設計的，把民間
槍枝所用于彈威力設計在至多傷人而不能致人
死亡的水平，並控制其配備數量，發生槍擊而
死亡的人數就大幅度下降了，意欲殺人者的難
度加大了，救援的迴旋余地也大了，民衆的恐
慌感跟着下降了。兩害相衡取其輕是也。

立法控制民用槍枝子彈威力及其配備數量
的事情是由美國人民來決定的事。相信美國人
民理智。

遠業遠圖，該圖當圖。

伯牙鼓琴，子期善聽，高山流水，人景音

來信人機構要求以不具名方式公開
The sender requested anonymity

Document in support of the RHKYC for continuation of its PRL at the current level

Introduction

By way of introduction, I should state that I am a member of the RHKYC. I joined in 1997 and have been an active sailing member and have also served on one of the committees for several years

For further introduction, I am a HK permanent resident having lived in HK for over 30 years. I am in full support of the government's efforts to find more land for public housing and in support of the various home ownership schemes. I sold all of my HK property some years back believing property prices could not continue to rise and I have therefore been renting for over 5 years now. This has given me the opportunity to see the HK housing issue from different perspectives. I want the HK government to solve the housing issue of in order ordinary citizens can afford to own their own home, and for those who cannot own they can expect the HK government to make available decent and livable accommodation at prices people can afford and in the right timescale

My view is that revoking or charging extra for the PRL for the RHKYC is detrimental to the HK Gov. goals of sport for all, supporting elite sports and bringing business to HK thru international sporting events

Surely better for the Gov to undertake more land reclamation, come to agreements with the PLA for land plus various NT agreements on land availability

By way of support for the RHKYC and continuation of the PRL lease at the same level, I share my experiences and observations of the club

- 1 Sailing and rowing are not luxury sports only for wealthy people. Sailing and rowing are highly suitable sports for HK people where skills are more important than physical attributes alone. I sail a type of boat that is modest in purchase price and most maintenance can be undertaken by the owner and running costs are not too expensive
- 2 The RHKYC is a non-profit organization and there are zero shareholder dividends issued. The club is run by the members and operates in an open, transparent and accountable manner with elections and audited accounts. All funds are used to run the club and invest in equipment and events to support the future of sailing and rowing
- 3 Today, I note there are some 40%+ of the people taking part in sailing at the club's locations each weekend are non-members and regular HK citizens I first visited the club as a non-member and sailed as a non-member before deciding to join
- 4 Training courses are open to the public and you don't need to be a member to learn sailing or rowing at the club. It has been my great pleasure in the past to volunteer as a trainer for the courses working alongside the club coaches and this keeps the costs down for participants. The courses are open to everyone

- 5 The school's participation in sailing at the club is awesome and HK's future elite sailors will surely come from the school participation in sailing and rowing
- 6 Since my joining of the club in 1997, I've witnessed the club reaching out gradually to the sailing community in China and today this is a great success. This surely matches both the HK and China government goals of further integration generally and specifically for the greater bay area
- 7 I always feel proud when the club hosts international events and we welcome peoples for all walks of life from around the world to attend events organized by the club. I've met multi-millionaires and modest couples who combine their once per year holiday with sailing to join one of our events. Such events are good for the HK economy and bolster HK's image as Asia's world city
- 8 We are certainly a multi-cultural lot at the club, with HK people at its core. I don't know if the club was superior and foreigner-elitist prior to my joining in 1997 but my own experience since joining has been positive and amongst my closest life-friends and sailing friends are HK people and peoples of several different nationalities, just as we would want in HK
- 9 HK should have an active harbor being used for water sports each weekend to show the world we are a healthy, happy and active community that will attract talent to HK in the knowledge there are a great variety of sporting and recreational facilities available once they get here
- 10 The club integrates well with the other water-sports based organizations in HK and I've seen at first hand the inter-organization cooperation. This is great for harmony in HK to be benefit of the whole community loving water sports and "sport for all"

In conclusion, with the focus I would use in my management consultancy work I offer the following formula

Higher PRL fees = Higher club prices = fewer members = less facilities = less sailing = less sport for the HK community

Less sailing = less international events = less visitors = less business = less relationship with China and the world

Protect the HKFC

04/07/2018 14:44

From:

[REDACTED]

To:

"tfls@devb.gov.hk" <tfls@devb.gov.hk>

The Hong Kong Football Club plays a huge role in the development of sport at all levels in Hong Kog. It is also the birth place of the greatest sports event in Asia – the Hong Kong 7s, an event that put Hong Kong on the international map and paved the way for 7s rugby to enter the Olympics games.

The Club supports a huge number of sports and promotes healthy living, activity and sports development to locals and expats of all ages. The mini rugby community at the HKFC is almost 100 kids who play every weekend. Football, swimming, tennis, squash, hockey and many other sports also benefits from the Club facilities.

The Club is utterly unsuited to development for public housing and it's critical role in the development of sport, and a healthy population of Hong Kong means it should be protected from development

Yours sincerely

還有必需收回粉嶺高爾夫球場
此選項可以馬上為香港提供大量土地供應
如荃灣差不多的面積 住20萬人完全沒有任何問題
沒有任何理由不收回
除非富人的娛樂比其他大部分市民的『生存』必需品更重要 不是生活是生存

<tfls@devb.gov.hk> 於 2018年7月3日 週二 下午11:52寫道：

多謝你致土地供應專責小組(專責小組)的電郵。你的意見或建議將會供專責小組參考及分析。專責小組正進行為期5個月的公眾參與活動(由2018年4月26日至9月26日)，凡在公眾參與過程中向專責小組提供意見和建議的個人或團體，將被視作同意專責小組可將其意見和建議的部分或全部的內容(包括個人姓名及團體名稱)公布。如你不同意這個安排，請向專責小組秘書處反映。

專責小組的公眾參與書冊、小冊子已上載到專題網站(www.landforhongkong.hk)，亦可於各區民政諮詢中心索取。另外，你亦可透過網上問卷(www.landforhongkong.hk/tc/views/index.php)提供就各個土地供應選項及其他土地供應議題的意見及建議。

土地供應專責小組秘書處
(以上為電腦自動發出的訊息)

Thank you for your email to the Task Force on Land Supply (the Task Force). Your opinions or suggestions will be relayed to the Task Force for reference and analysis. The Task Force is organising a 5-month public engagement exercise starting from 26 April 2018 to 26 September 2018. Individuals or organisations who have provided views and suggestions to the Task Force during the public engagement exercise will be seen as consenting to allow the Task Force to publicise some or all of the content of their views (including names of individuals and organisations). Please notify the Secretariat of the Task Force if you do not agree with such arrangement.

The public engagement (PE) booklet and pamphlet have been uploaded to the Task Force's PE website (www.landforhongkong.hk). They are also available for collection from Home Affairs Enquiry Centres in all districts. Besides, you can provide your opinions or suggestions on land supply options and other land supply matters through the online questionnaire (www.landforhongkong.hk/en/views/index.php).

Olivia Lefebvre's suggestions on Land Supply - Country Parks should never be an option for development

04/07/2018 23:44

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Jenny Buck

04/07/2018 21:54

From: [REDACTED] To: tfls@devb.gov.hk

善用棕土，不應發展郊野公園邊陲地帶和填海

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港 市民難得的叫氣地方。

本人期望土地供應專責小組能真的能保護我們的環境，也能讓市民安居樂業。

祝 安好！

Annika Feign's suggestions on Land Supply - Country Parks should never be an option for development

04/07/2018 21:04

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Victoria Lai 對土地供應選項及相關議題的意見

04/07/2018 20:50

From: [REDACTED] To: tfls@devb.gov.hk

土地供應的選項不應包括郊野公園邊陲地帶和填海

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港 市民難得的叫氣地方。

懇請土地供應小組聽取民意，令香港真正可持續發展。 敬

祝安好！

Susan Mertens's suggestions on Land Supply - Country Parks should never be an option for development

04/07/2018 18:58

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Susan Mertens

改善規劃，用好棕地

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府必須優先使用棕地和私人遊樂場地契約用地，有研究已經指出，香港的棕地及粉嶺高爾夫球場等已經足以應付香港未來的房屋需求。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個 涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港 市民難得的叫氣地方。

請黃遠輝先生為香港下一代著想，不要開發郊野公園邊陲地帶。 敬祝安好！

tfls@devb.gov.hk

土地供應的選項不應包括填海和郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局必須首先善用棕地，及私人遊樂場地契約用地，釋放現有的土地資源。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

衷心希望土地供應小組接納意見，要求政府改善規劃，保護珍貴的自然環境。

祝願 閣下生活愉快！

Andre Maxwell's suggestions on Land Supply - Country Parks should never be an option for development

04/07/2018 17:44

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Andre Maxwell

郊野公園邊陲地帶和填海都不應成為發展和土地供應的選項

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性 選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

請土供組如實向特首林鄭月娥反映市民訴求，規劃棕地，保護郊野邊陲地帶。

祝願 閣下生活愉快！

Lily Chiu 謹啟

郊野公園邊陲地帶和填海都不應成為發展和土地供應的選項

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局必須首先善用棕地，及私人遊樂場地契約用地，釋放現有的土地資源。

郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶），及在維港以外近岸及東大嶼填海，不能被視為增加土地的選項，當局亦應小心處理農地等其他天然資源，因為我們 要尊重大自然。

本人希望土地供應小組向政府反映本人意見，保護香港的自然環境。

祝 安好！

abigail povey's suggestions on Land Supply - Country Parks should never be an option for development

04/07/2018 15:02

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
abigail povey

joey wun 對土地供應選項及相關議題的意見

04/07/2018 13:44

From: [REDACTED] To: tfls@devb.gov.hk

優先使用棕地，守護自然郊野及郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

政府不應發展郊野公園兩個試點作為中長期選項，不應研究郊野公園邊陲地帶其他地點，亦不應考慮在維港以外填海，因為填海將破壞海洋生態。

希望土地供應小組聆聽民意，促請政府改善規劃，令市民真正安居樂業。 萬分感謝！

From: [REDACTED] To: tfls@devb.gov.hk

愛護自然，不應發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性 選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

請土地供應小組尊重民意，為香港市民保護自然環境。 敬

祝安好！

tfls@devb.gov.hk

郊野公園邊陲地帶和填海都不應成為發展和土地供應的選項

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個 涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港 市民難得的叫氣地方。

希望土地供應小組聆聽民意，促請政府改善規劃，令市民真正安居樂業。

Dr Huang Sabherwal's suggestions on Land Supply - Country Parks should never be an option for development

04/07/2018 13:14

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Dr Huang Sabherwal

善用棕土，不應發展郊野公園邊陲地帶和填海

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局必須首先善用棕地，及私人遊樂場地契約用地，釋放現有的土地資源。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

請土供組如實向特首林鄭月娥反映市民訴求，規劃棕地，保護郊野邊陲地帶。 敬祝安好！

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Monica Cheung

Hui Wai Yee 對土地供應選項及相關議題的意見

04/07/2018 12:06

From: [REDACTED] To: tfls@devb.gov.hk

先用棕地，糾正規劃問題

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局必須首先善用棕地，及私人遊樂場地契約用地，釋放現有的土地資源。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

本人期望土地供應專責小組能真的能保護我們的環境，也能讓市民安居樂業。

祝 安好！

Richard Donian's suggestions on Land Supply - Country Parks should never be an option for development

04/07/2018 09:54

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Richard Donian

Carmen Lau 對土地供應選項及相關議題的意見

04/07/2018 09:44

From:

To:

tfls@devb.gov.hk

致土地供應專責小組：

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

- 政府應優先發展棕地，有研究已經指出，香港的棕地及粉嶺高爾夫球場等已經足以應付香港未來的房屋需求；

- 郊野公園及其邊陲地帶以及填海都不應該成為土地供應的選項（不論是短期、中長期或概念性選項），其他的自然土地資源（如農地）亦應謹慎看待。因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

- 請特區政府勇謀兼備，處理新界存積已久的土地規劃不公問題。

本人期望土地供應專責小組能將本人意見進一步反映予政府相關部門，讓香港能真正落實可持續和以人與生態為本的發展規劃。

順祝 台安！

Kenneth Luk 對土地供應選項及相關議題的意見

04/07/2018 09:40

From: [REDACTED] To: tfls@devb.gov.hk

填海和郊野公園邊陲地帶都不應成為發展和土地供應的選項

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性 選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

本人希望土地供應專責小組虛心接受市民的意見，無須開發郊野公園邊陲地帶。

敬祝安好！

Leung Wai mui 對土地供應選項及相關議題的意見

04/07/2018 08:48

From: [REDACTED] To: tfls@devb.gov.hk

土地供應的選項不應包括填海和郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局必須首先善用棕地，及私人遊樂場地契約用地，釋放現有的土地資源。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性 選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

請土供組如實向特首林鄭月娥反映市民訴求，規劃棕地，保護郊野邊陲地帶。

順祝 台安！

Karl Whitehead's suggestions on Land Supply - Country Parks should never be an option for development

04/07/2018 08:42

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Karl Whitehead

改善規劃，用好棕地

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。

郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶），及在維港以外近岸及東大嶼填海，不能被視為增加土地的選項，當局亦應小心處理農地等其他天然資源，因為我們 要尊重大自然。

請土地供應小組尊重民意，為香港市民保護自然環境。 萬

分感謝！

Gemma Cowieson's suggestions on Land Supply - Country Parks should never be an option for development

04/07/2018 02:14

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Gemma Cowieson

Cheuk Chin Wah對土地供應選項及相關議題的意見

04/07/2018 01:54

From: [REDACTED] To: tfls@devb.gov.hk

優先使用棕地，守護自然郊野及郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個 涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港 市民難得的叫氣地方。

本人期望土地供應專責小組能真的能保護我們的環境，也能讓市民安居樂業。

順祝 台安！

Cheuk Chin Wah 謹啟

25-6-2018

香港山多平地少，寸金尺土，土地長遠的發展非常重要，對香港的發展及市民的需求都有着重大的利益，有着完善的土地發展將有助經濟增長及市民生活更加美好。

本人是來自基督中學的中國級學生，在經過資料搜集和課堂討論後，本人希望能對香港土地供應提出一些建議，望能接納：

首先，對土地在短期方面，私人遊樂場較合適的土地供應選項。因為從時效性來說，私人遊樂場屬政府擁有，不須收地及清拆；舉例2020年粉嶺高球場契約屆滿，屆滿後球場將能用作房屋、商業、社區設施、休憩用地等用途，則能解決短期的土地發展問題，相較起棕地、農地中要解決收地、賠償、安置等的時間及確定性來得更快捷有效。

從可行性上來說，雖然說私人遊樂場在發展上要面對多項技術限制，例如堆填區的表面只能承受有限的重量，並且容易出現不平均沉降，亦不容許進行打樁工程；但只要政府能合切利用土地，根據適當土地的規劃，私人遊樂場的確是短期內較合適的土地供應選項。而且成本上比起棕地及農地雙方上都要比較低，不用解決收地、賠償、安置、補償等因產的費用，加上私人遊樂場不用如棕地及農地一樣解決大量的法律問題，拖慢土地發展的進度。

從有效度且可見，雖私人遊樂場只有佔地172公頃，但從全面發展方案可提供13200個住宅單位，容納約37000人。商業和旅遊、消閒項目則可提供約12000個就業機會，相較棕地及農地騰出的空間上就遠遠不及，但先以短期快捷而言，私人遊樂場是短期內較合適的土地供應選項。

另外，對土地在長期方面，在新界發展更及新發展區較合適土地供應選項因為從時效上發展新市鎮需時15年或以上，但從長期土地發展而言，發展新市鎮所能騰出的土地比填海及地下空間及岩洞來得更大面積，長期發展犧牲大量時間實不可非，只要作用大，就能令土地發展較巨速。
發展新市鎮是首要

從可行性上，發展新市鎮的成市雖高(包括補償、收地、清拆等費用)，但要令土地發展更加巨速，花費金錢只是切合之需，巨速的土地發展方案費用本身

就昂貴，政府如想進行長期的土地發展，就應預先準備足夠的資金。

從有效度上的得益不用多說，成效非常大，舉例車涌、古洞北、洪水橋及元朗南項目是香港中短期土地供應的主要來源之一。這些項目預計可於2023年至2028年間提供接近20萬個房屋單位，原接近58萬人提供家園；亦會興建超過80萬平方呎工高單位，提供約24萬個就業機會，並優化區內經濟、工高單位及遠近潛力可見發展新發展區的成效非常高，而且新發展區當中涉及的地海部分佔很少，相比大面積填海破壞水質、漁業等等的問題正觀許多，但農耕的生存空間的確會下降，政府可另外規劃一部分土地作為農民繼續進行農耕發展。

總括而言，本人認為短期土地發展應以填海等場為任，長期土地發展應發展新發展區居住。

某智中學中四級學生

龐宇軒敬上

五月二十九日

致土地供應專責小組黃遠輝先生：

現香港本地土地供應不足，本人就以上問題提供以下解決方案。本人是來自中華基督教會基智中學的中四級學生，本人希望能對香港土地供應提出一些建議，望能接納：

首先，對於土地在短期方面，我認為政府選擇私人遊樂場改建成其他短期需要的土地發展。因為私人遊樂場並非私人所擁有，是公地租借給私人，所以回收後所帶來的反對聲音應該不會很大。收回土地的花費時間很短，例如：粉嶺高爾夫球場在2020年契約屆滿，而且就我所知，私人遊樂場所佔地12公頃，全面發展這方案可提供13,200個住宅單位，容納約37,000人。商業和旅遊、消閒項目則可提供約12,000個就業機會。雖然私人遊樂場所提供土地不及於農地、棕地等等，但私人遊樂場收地時間最短，面對不會大規模發展緊急需要土地的短期發展，就最符合它的時效性最大。

在長期方面，我認為政府在新界發展更多新發展區。首先，我認為香港長期土地問題是住宅用途，因為有大量市民在等候公屋，但香港長期沒有足夠的住宅滿足市民，因此發展新界新發展區比不適合住宅用途的地下空間及棕地更能解決現有長期問題。另外東大嶼填海發展較新界發展區能提供更多的住宅區，而我仍然建議政府選擇發展新界發展區，因為東大嶼填海所花費的資金和時間更多，新界發展區所花的時間和金錢能夠更快供給市民居住和節省稅收，為市民着想。同時填海和發展區都會破壞環境，會遭受到環保團體反對，因此政府應選擇比填海污染較少和能夠提供住宅區的新界發展區。

總括而言，本人認為政府在短期應選擇私人遊樂場發展，而長期方面應選擇新界發展區。

中華基督教會中四學生

連嘉豪敬上

一九一八年五月二十五日

致土地供應專責小組黃遠輝先生：

本人是來自^是基智中學的十四名學生，在經過資料搜集和課堂討論後，本人希望能對香港土地供應提出一些建議，望能接納：

首先，對土地在短期方面，本人認為私人遊樂場^是較合適的土地供應選項。因為在時效性方面，棕地的收地時間是10年，而農地涉及收地、賠償、安置這使收地時間存在不確定性。相反，私人遊樂場已屬於政府擁有，不涉及收地及清拆，所以大大減少時間。在時效性方面私人遊樂場是最快的，雖然在數量方面只有172公頃，但這只在短期方面，不需要太多土地。另外，在可行性方面棕地大多數是具污染性質的工業，如回收場、停車場、維修場等，而且基礎設施不足，所以需要投放大量資源解決這些問題，而農地亦需要投放資源解決該問題，相反私人遊樂場則沒有該問題，所以在成本方面私人遊樂場較易做到，所以本人認為私人遊樂場較合適。

此外，對土地在長期方面，本人認為東大嶼及填海^是較合適的土地供應選項。因為在時間性方面東大嶼及填海所需的时间是最少的，地下空間及岩洞所需的时间是10至15年，而^在新界發展更多發展區所需的时间是最少15年，東大嶼及填海所需的时间只需10年。而可行性方面，東大嶼及填海是一個成本效益相對比較高的土地供應選項，雖然填海^會對環境造成影響，但^有最新的填海技術能減低對周遭水質和生態的影響，所以我認為東大嶼及填海是較合適的土地選項。

總括而言，本人認為私人遊樂場和東大嶼及填海是最合適的土地發展選項，望閣下接納。

基智中學十四學生

李延敬上

23-5-2018

本人是來自中華基督教會基督中學的中四級學生，在經過資料搜集和課堂討論後，本人希望能對香港土地供應提出一些建議，望能接納：

首先，對土地在短期方面，我認為私人遊樂場為較合適的土地供應選項。因為時效和可行性方面較為優勝。時效方面，由於私人遊樂場屬政府擁有，不涉及收地及清拆，對比於棕地和農地，棕地屬私人土地，以及得到當地居民支持該工業搬遷至他們居所附近可能較困難，因部分是具污染性質的工業，而農地是公私營合作模式，政府提供基建，涉及收地、賠償、安置，因此時間存在不確定性。但私人遊樂場屬政府擁有，而且一些私人遊樂場例如粉嶺高球場將於2020年契約屆滿。假若政府選擇在2020年時發展私人遊樂場，在三年內作土地規劃。例如考慮是否需要重置球場設施。雖然發展規模若大幅提升，則需要更多基建支持，但三年規劃完成，則會節省實施時間。另外，在可行性方面，康樂場地屬政府擁有，雖然發展上要面對多種技術限制，例如，堆填區的表面只能承受有限的重量，並容易出現不平勻沉降，但在已修復堆填區域或可用作社區康樂設施，可以考慮作一個綜合大樓，例如藍田的綜合大樓把各類型的社區康樂設施「建」於一座大廈。而棕地由於棕地大多屬私人土地，收地及補償費用。需要進行土地除污工程。而農地提供基建涉及收地、賠償、安置，成本、時間存在不確定性。因此就短期而言，在時間性和可行性而言，私人遊樂場較為合適的土地供應選項。

另外，對土地在長期方面，東大嶼及填海為較合適的土地供應選項。因為就時間性、可行性、有效度較其他選項優勝。以時間性而言，由於東大嶼填海不需要收回私人土地及安置居民，而新界發展區需要大量時間及成本進行收地、補償、重置及土地平整亦需要提供大量交通、基建及社區配套設施；地下空間及岩洞不能即時解決可發展土地短缺的迫切問題，尤其是在岩洞內的地下用地亦不適合作住宅用途。因此就時間性而言，東大嶼為較合適的土地供應選項。就可行性也是較為合適的土地供應選項，政府會優化設計和施工方案，並提出適當的緩解及補償措施，以減低因填海而對鄰近魚類養殖區及漁業可能產生的影響。而在新界發展區需要大量時間及成本進行收地、補償、重置及土地平整，亦需要提供大量

交通、基建及社區配套設施，而地下空間及岩洞開發成本同樣較高昂貴。相對於地面構築物、設施，設置於地下空間的構築物及設施往往涉及較高昂的運作、管理和維修保養成本。因此就時間性和可行性上，東大填海是較合適的選項。

以上為本人之建議，懇請接納。

二零一八年五月二十五日

致土地供應專責小組黃遠輝先生：

本人認為土地發展對香港社會和市民十分極為重要，現時大部份市民也較有能力買樓，所以政府房屋的需求十分大，~~但~~香港人口眾多卻大部份香港人也住在環境惡劣的地方，~~但~~所以我認為發展土地對香港人來說是極為迫切性的。

本人是來自中華基督教會基督中學余祥宜四丁班的学生，在經過資料搜集和課堂討論後，本人希望能對香港土地供應提出一些建議，望能接納：

首先，對土地在短期方面，我認為農地較合適作為土地供應的選項，因為農地在時效上比其他更即時和快。首先，棕地在收地上需花上約10年的時間加上要向私人土地作賠償和要得到当地居民支持該工業搬遷至他們的居所附近較困難，然後私人遊樂場在時效上也較差，因為需要更多的基建設施支持，實施時間長。在可行性上，農地比其他選項更有可參考性，在棕地上，由於太多屬私人土地，收地及補償費用。需進行土地降污工程，更需投入大量資源來提升基建設施。而私人遊樂場的壞處有，在發展上有很多限制，例如：堆填區的表面只能承受有限的重量，和容易出現不平均而沉降。而在有效度是我也認為農地較全面，因為大型發展商合共擁有面積相若於現有全港公私營房屋總土地面積約四分之一了，但發展棕地須依靠大規模的綜合規劃，成效較低。

發展新界

另外，對土地在長期方面，~~東大嶼~~和填海是較合適作土地供應的選項，因為在時效性方面可知，發展東大嶼需要約十年的^長時間和通常不需收回本地私人土地及安置居民，~~但~~在發展新新界需要大量成本進行收地，補償，重置及土地平整，亦需要提供大量交通、基建及社區配套設施。而發展地下空間及岩洞在時效方面較慢，因為一個岩洞項目自構想至實現可能需時20年至15年的時間加上不能即時解決可發展土地短缺的迫切問題。而在可行性方面，發展新界是較具成本效益地處理棕地問題，為整合棕地作業提供契機，可見發展東大嶼在技術、配套上，在通常需要大量成本資本投資。而發展地下空間在成本上為較昂貴，要較高昂的運作、管理和維修保養成本，最后在有效度上發展新界也是較全面和成效大的，他可善用土地資源及推動高密度發展和能改善鄉郊環境，而東大嶼在運輸基建設施，所以成本較高；而發展地下空間，因發展

棉等物的成本較廉

總括而言，本人認為從時間性，可行性，有效度性考慮得到，發展短期的農地和長期的發展新界是最合適的。

二零一八年五月二十三日

致土地供應專責小組黃遠輝先生：

我認為土地發展對香港社會和市民是十分重要的，香港地少人多，加上人口不斷增加使香港人長期得不到解決的居住問題，因此我認為只要土地發展，社會問題便會迎刃而解也自然變得和諧。本人是來自中華基督教會基智中學的中四級學生，在經過資料搜集和課堂討論後，本人希望能對香港土地供應提出一些建議，望能接納：

首先，對土地在短期方面，農地較合適的土地供應選項因為在時間性上政府提供基建，配套吸引發展商建屋提供基建涉及收收，賠償，安置，時間存在不確定性而發展商擁有一些農地而且私營界別效率高，相比下棕地要收地需時十年並涉及商討賠償，協助覓適合的土地需時比較上困難而私人遊樂場雖然是政府擁有卻重置康樂設施需時所以在時間性上農地的成效較高。在可行性上農地的成本主要包括基建支援設施比私人遊樂場發展面對各種技術限制較少，而對比棕地投放資源來提升基建設施較少，所以在可行性上大為優勢。在有效度方面農地可以透過公私營合作模式發展私人土地並有效率使提供多可負擔房屋並建築設計多元化。

另外，對土地在長期方面，地下空間及岩洞較合適土地供應選項。在有效度方面地下空間及岩洞能夠改善市區地面的環境及創建空間作多元的商業用途和公共設施並能長遠地優化珍貴的土地資源的發展潛力並能騰出土地空間不及填海，新界新發展區多，雖然在可行性上比填海和新界發展更多新界發展區較為昂貴而資金，開發成本相比下十分昂貴，但地下空間及岩洞能夠保育環境，生態環境。

總括而言本人認為農地合適在短期發展而地下空間及岩洞較合適在長期發展

中華基督教會基智中學中四學生

柯嘉儀 敬上

二零一八年五月二十五日

本人是來自中華基督教會基智中學的中四級學生，本人認為土地發展對香港社會和市民非常重要，而近年的土地越少，難以為市民提供足夠的住宅和繼續發展香港，受到限制。因此，在經過資料搜集和課堂討論後，本人希望能對香港土地供應提出一些建議，望能接納：

首先，對土地在短期方面，本人認為農地是較合適的土地供應選項。因為在時效方面都較棕地與私人遊樂場快，棕地的收地需時10年，加上由於屬私人土地，更需要時間為棕地業者另覓適合的土地，而要得到當地居民支持該工業搬遷至他們居所附近亦非常困難，皆因大部分是具污染性的工業；而私人遊樂場需屬政府擁有，不涉及收地和清拆，可是覓地、重置康樂設施亦需時間，加上發展規模若大幅提升，則需要更多基建設施支持；相反，農地提供基建、配套吸引發展商建屋，而只需涉及收地、賠償、安置的問題。在可行性方面，農地的主要成本包括基建支援設施和收地、賠償等，而棕地因屬私人土地，收地和補償的費用會比農地的多，加上棕地還需要進行土地除污工程、投放大量資源來提升基建設施，而相關行業鏈的營商成本亦將會增加，部分工種或會減少、失業；而私人遊樂場涉及古樹、文物保育、體育發展和經濟發展的平衡，發展上要面對多種技術限制，且缺乏基建設施，需要大量成本。在成效方面，農地合共擁有的面積約四分之一，發展農地有助釋放目前未被善用的私人土地資源，以發展更多房屋及公共設施，亦可同時惠及現有和新增的人口，透過公私營合作模式發展私人土地，應可更有效率地提供更多可負擔的房屋並使建築設計更多元化；而棕地雖有1200多公頃的土地面積，但暫時只有510公頃的棕地是未來土地供應的主要來源之一，但分布零散，大小不一，形狀不規則，而餘下760公頃仍需要研究是否適宜。因此，農地是較合適的土地供應選項。

另外，對土地在長期方面，填海和填海是較合適的土地供應選項。因為在時效方面，填海和填海這種方法需時10年，較在新界發展更多新發展區和地下空間及岩洞短，而且通常不需收回私人土地及安置居民；相反，新界發展區需要大量時間進行收地、補償等，亦需要提供大量交通、基建及社區配套設施，且最少需要最少15年；地下空間及岩洞亦需時10至15年，加上不能即時解決可發展土地短缺的迫切問題，不適合住宅用途，因此也不適合。在可行性方面，填海工程雖需要投放大量資本，但成本效益相對比較高，而且政府

會優化設計和施工方案並提出適當的緩解及補償措施以減低因填海對鄰近各類養殖區及漁業可能產生的影響，最新的填海技術亦能減低對周遭水質和生態的影響。在成效方面，填海能創造大片新土地，可為新社區的綜合規劃提供較大彈性，新土地可用作調遷受其他土地供應方案影響的設施，亦可提供空間，重置需遷離市區的特殊工業或「厭惡性設施」。

總括而言，本人認為對土地在短期方面農地，和在長期方面東大壩和填海是較適合的土地供應選項。

中華基督教會基督中學中四級學生

翁偉傑 敬上

二零一八年五月二十五日

本人是來自中華基督教會基督中學的中四級學生，在經過資料搜集和課堂討論後，本人希望能對香港土地供應提出一些建議，望能接納。

首先，對土地在短期方面，棕地是較合適的土地供應選項。因為棕地的時間性都較農地和私人遊樂場短，只需10年，相反，農地發展存在不確定性，而私人遊樂場的實施時則較長。在可行性方面，農地較棕地和私人遊樂場好。因為棕地相關的行業鏈的營商成本將會增加，部分工種或會減少、失業。相反，農地所需的成本較少，主要包括基建支援設施，而私人遊樂場是由政府擁有，部分更涉及古樹和文物保育等。因此在可行性方面農地較為合適。在有效度方面，棕地最為有效，因為棕地有多達540公頃可用，對保育的影響亦較低，相反，私人遊樂場只有172公頃，而且農地會對具有生態價值的用地構成威脅。總括而言，在短期方面，棕地最為合適。

另外，對土地在長期方面，填海是較合適的土地供應選項。時間方面，若在新界發展新發展區，最少需要15年，而岩洞需時0至15年而且不能即時解決可發展土地短缺的迫切問題，尤其是岩洞內的地下用地並不適合作住宅用途。在可行性方面，填海是一個成本效益相對較高的土地供應選項，而且最新的填海技術能減低對周圍水質和生態的影響。相反，發展新發展區會影響不少居民、農戶及工商業經營者等，部分受清拆影響人士要求「不遷不拆」，要求更佳的重排。因此清拆收地過程可能影響發展項目的進度，而岩洞的開發成本是較地盤建築物較昂貴。填海後所得的土地逾1000公頃，可用來作為新市鎮和核心商業區，而新發展區只有540公頃土地可用，岩洞所得的土地不及填海、新界新發展區多，因此，填海的有效度、可行性和時間性都較岩洞和新發展區好。

總括而言，本人認為對土地在短期方面，棕地是最合適，而對土地在長期方面，填海是最合適。

黃金通(金堂)

致：林鄭月娥特區首長 你們好

茲提出香港發展的基礎：有短中長期，發展山區，恢復農耕等等。在短期方面，將空置貨櫃改裝成為小眾屋位屋，于沿鐵路線之新界各站附近，清理各屋邨富戶遷出之單位，中期方面，位于呈祥道近石峽尾交界大球場，可建造每棟40層，11單位，容納320戶之房屋，長期方面，大山巒山環海移山填地，發展六個衛星城市，可容納300至600萬人口。

計劃發展山區：種草牧牛、羊、鹿，恢復農耕，種植高質量農作物，發展魚塘，養鴨，在魚塘上建雞舍養雞，雞糞下魚塘養魚，魚塘回過種草，供魚食。

助豬農養豬，豬糞可與全港之酒家回收“食餘”，不可有垃圾。恢復農耕之人力，可由非洲簽約來港工作六年，每月工資三仟元，供食宿，負責機票，六年回非洲。甚么是可為，不可為，這是人為，只要對社會有益，對人們有幫助。

歡迎提出對本港有利建議，大家合力建做一個世界交流市場，吸引投入，吸引人才，對大家都有利。

自療及風濕症研究者

4. 意見：

政府在新界收不到地，原因是仍然沿用 25 年前的收購價。
小組或政府有沒有去了解收地政策，為何仍用 25 年前的收購價去收地，這樣如何能發展新界居民的土地。居民賣地所得不夠在外再買樓。
(來電者特別說明：例如 1 萬尺地以 HKD300-500/尺收地，賣地後不夠錢再買樓，而且現住的不用交管理費，但搬去新樓後便要交管理費)

元朗一尺地的地價也不只 HKD3-500。此外早前土瓜灣被收地也以 HKD 1 萬/尺作賠償。

提供意見

to: tfls@devb.gov.hk

05/07/2018 20:29

請問新界土地點解會遺留25年前嘅賠償，點解唔可以效法土瓜灣同區、大角咀同區十年樓七成賠償計算。

以而家元朗樓宇呎價 \$ 11,000，農地收回價300蚊至500蚊，點解會相差咁大？

如果以同區十年樓七成賠償計算，收地價錢每尺 \$ 7700，相信大部份土地擁有人都願意交出土地建設房屋！增加土地儲備

點解今時今日香港會有咁大嘅差別，希望可以考慮以合理價錢收回農地發展。

如果一個老人家擁有5000呎農地的話，以 \$ 300收地只得到港幣1,500,000，以現時能買什麼樓，係咪想逼死個老人家！？

點解全香港同區十年樓七成賠償唔包括新界發展土地，興建樓層增幅多達數以千倍利潤。咁樣的話，對抗係咪會越來越大？市民怨聲再度，官商勾結更加大，咁樣仲算合理咩？！

期待土地供應小組回覆，亦可致電本人

敬启者：

你们好，关于香港的房屋问题，我觉得可以不用填海，但用海上的空间，类似海市蜃楼，以梅花间竹的方式建楼，然后用九曲桥的方式连接，如果贵司有雅兴，我可以提供更详细的构思。

陈伟谨上
2018年7月4日

建議人指政府可以建造些「學校區」(像是工業區)，令屋村毋需再包含學校，而用作建學校的地方也可以用作建屋，多一棟樓宇供應予輪候公屋的人士。

來電人表示日後部門推出填海方案時會遇到環保團體提出反對，建議部門不應理會他們，應繼續著手進行填海工程，因來電人認為環保團體根本不清楚現時有很多市民正輪候公屋，有見及此，填海興建公屋是有確實的迫切性，但環保團體表示政府可以拆舊的樓宇來興建房屋，但拆舊的樓宇需要為該住客提供住的地方，未必一時三刻能辦妥，因此，建議部門推出填海方案時不應理會環保團體的反對，應繼續著手進行填海工程，這樣能提供更多房屋予香港市民。

最後，來電人建議部門進行填海工程可由碼頭開始著手，例如觀塘碼頭、紅磡碼頭、屯門碼頭

**Falling is Important - Not just for Golf**

██████ to: tfls@devb.gov.hk

05/07/2018 23:22

To: Secretariat, Task Force on Land Supply

The Hong Kong Golf Club (“HKGC”) is important and needs to be preserved for many reasons.

First and foremost, the Club is one of the oldest golf club in South East Asia and second oldest in Asia. The clubhouse in Fanling is a Grade II Heritage Building. There are also 68 ancestral graves with many dating back several hundred years to the Qing and Ming dynasties.

Secondly, HKGC is home to many trees and inhabited by a huge diversity of fauna including birds, reptiles and other wildlife. It is the “green lung” of the northern New Territories.

Thirdly, HKGC is open to the public from Monday to Friday throughout the year. In 2017, 42% of the rounds of golf played were by non-members. I believe HKGC will continue to find ways to increase the public’s access to this great facility. In addition, the HKGC engages in many community outreach events, raising more than HK\$20 million annually for various charities in Hong Kong. By keeping the 3 golf courses, we also provide a chance to introduce, nurture and train young talented golfers.

Finally, the HKGC hosts the Hong Kong Open which is Hong Kong’s oldest professional sporting event. The event had a record attendance of over 48,000 spectators attending in 2017 and the tournament was broadcast worldwide to over 400 million households.

In summary there are many worthy reasons to keep HKGC intact. Increasing affordable housing is an important priority for the Government and for the future of Hong Kong. However Hong Kong has many other better options to achieve this.

Sincerely,

Jamee Wong

--

Regards, Jamee

**Land Supply**

██████ to: tfls@devb.gov.hk

05/07/2018 19:14

Secretariat, Task Force on Land Supply, 17/F West Wing, Central Govt Offices, 2 Tim Mei Avenue, Tamar, HK

tfls@devb.gov.hk

Dear Sirs,

I have been resident in Hong Kong for 55 years and a member of the Hong Kong Golf Club for 50 years.

I am deeply concerned that the unique area of the Fanling golf courses should be preserved for the benefit, not just of the members, but for the thousands of non-members who enjoy golf there each year, and the thousands of participants in athletic, tennis and other activities.

The Club is actively promoting the game to youth groups, building a cohort of youngsters who will represent Hong Kong in golf competitions. The course attracts thousands of golfers each year from other countries, and hosts the Hong Kong Open Golf Competition, this year for the 60th time, Hong Kong's oldest sporting event.

The Olympic Equestrian events would never have come to Hong Kong without the availability of the golf course area at Fanling.

The golf course area has great ecological value, providing a 'green lung' for the neighbourhood high density built-up areas and the areas already scheduled for housing development locally.

I appeal to the Task Force to take up some of the other, much more promising options for land development.

Yours sincerely,

Dr. John Mackay

Re : 香港土地供應諮詢18選項的我見
 to: tfls@devb.gov.hk

05/07/2018 17:41

致土地供應專責小組
 女士/先生,

香港土地供應諮詢18選項的我見

我原本打算參加上述諮詢,但覺得選項的做法只會製造更大混亂,更多爭拗,難有結論。其實,無論如何諮詢、選多少項、選那幾項,一定有落選項。此等落選項之支持者必定高呼:假諮詢,無視民意,也也勾結,……。斯文者為了伸張他們口中的公義,必定利用法援去進行司法覆核;勇武者則會遊行示威。所以,我提出“一個也不放過”的全面性看法,以供參考。

短中期選項(即有潛力於未來大約10年內提供額外土地)

(A) 棕地發展

需要及應該發展;關鍵只是一個錢字。

一方面切實執行土地用途法例,另一方面由政府遊說棕地擁有者放售土地,承諾只作興

建公屋用途,絕無居屋或私營項目。訂定收購價時應參考:作為農耕地收益,作為貨

櫃場收益,作為停車場收益,……,絕不能,亦不應,與私人房地產價格作比較。

(B) 利用私人的新界農地儲備

同(A),但部份可建居屋。

(C) 利用私人遊樂場地契約用地作其他用途

在市中心的首先更改。

在市邊沿的可續約15至20年。續約期滿時再視當情況考慮是否要更改。

(D) 重置或整合佔地廣的康樂設施。

某類佔地廣的康樂設施可研究立體化,騰出部份土地。

中長期選項(即有潛力於未來大約10年至30年內提供額外土地)

(E) 維港以外近岸填海

當然要有序進行

(F) 發展東大嶼山都會

當然要有序進行

(G) 利用岩洞及地下空間

絕不可取!因為照明及通風/空調會消耗龐大能源,真真正正不環保!不見天日的居住

環境亦可能對身心有不良影響。

(H) 於新界發展更多新發展區

現今連開發一塊地建一個公營或私營屋苑都不易,如何能輕易發展一個新區,更多新

區?

除非如港英時代,督爺(現在是特首)說了算,否則都是空談。所以,這只能順其自然,否

則只會費時失事,無疾而終!

(I) 發展香港內河碼頭用地

可探討,研究,考慮。

(J) 發展郊野公園邊陲地帶兩個試點
應進行試點，則進可攻，退可守，憑事實服人，判得失對錯；而非單靠空想推理，高談闊論。

概念性選項(即暫時未能確定其可提供額外土地的時間和數量)

- (K) 長遠發展香港內河碼頭用地及鄰近用地
應循此方向探討其可行性及效益。
- (L) 發展郊野公園邊陲地帶其他地點
應從(J) 汲取經驗及評估得失，決定行止。
- (M) 增加“鄉村式發展地帶”的發展密度
可如(J)一樣，以試點方式去驗證概念之可行性，效益，及得失。
- (N) 於現有運輸基建設施上作上蓋發展
鼓勵地產商自行向此方向探討。
- (O) 利用公用事業設施用地的發展潛力
可以研究探討。
- (P) 重置葵青貨櫃碼頭
可以研究探討。
- (Q) 葵青貨櫃碼頭上蓋發展
政府鼓勵，但絕不資助，地產商向此方向探討並提出合理方案供考慮。
- (R) 填平部份船灣淡水湖作新市鎮發展
反對此構思者主要是“少條草都要抗議者”，“物業景觀受影響者”，及“擔心冇樓炒者”。
政府應力斥其非，揭破偽善。

結語

在開發/發展各式各樣的土地時，政府高官，甚至特首，都不應被別有用心的“破壞環境”，“官商勾結”，“利益輸送”等標籤所嚇怕，而不敢果斷地去解決住屋問題。只要在合法，合理，及合情的大前題下，一心一意為普羅大眾想方設法，達至人人有瓦遮頭——不管是私樓，居屋，或公屋——便是德政仁政，天大好事！

官商勾結，利益輸送這些口號/標籤，看似死罪，其實只是偽命題。試想想，全世界所有政府，不管是民主的，專制的，開放的，封閉的，那一個不提倡扶持工商業，促進經濟。扶持工商百業，促進經濟的政策，就是要利商！而利商此事，出於在野者的口就成了官商勾結，利益輸送！根據此邏輯，當在野者當權了，他也就開始官商勾結了！？執政者施政只要不勃法、理、情，心中坦蕩蕩，便不應怕被扣“官商勾結，利益輸送”這頂帽子！合情、合理、合法的官商勾結，其實就是利商利民!!!

返回土地供應的主題。我認為，不應是單選某一項或某三幾項。政府應採取“多多益善”的政策，除了個別明顯不可行的選項外(如“利用岩洞及地下空間”)，其他所有項目都兼收並蓄，不分彼此，制定先後次序，一一推行。

由政府全面掌握的土地可即時進行研討，規劃，及設計，並訂定時間框架。

非政府掌握的土地則一方面按照相關法例，參考傳統及歷史(法例為主，傳統及歷史只作參考)，嚴格執行土地用途規定，一方面開出合理的補償/收購價收購土地，興建公屋(主要是公屋)。當政府多管齊下，選項多的是，對方的議價能力自然降低。此一選項，成則兩利，加快加大公屋供應；不成亦無大礙，因為還有其他選項如火如荼地在進行。

政府明言推行“多多益善，多管齊下”政策，雖然有個人、團體、傳媒會說是“有咨

詢等於沒諮詢”或“假諮詢”等口頭禪，政府可義正詞嚴地回應是“集思廣益”，“共同承擔，分享成果”，以正視聽。同一事物，往往可以有兩個完全相反的解讀，甚或多個不同解讀。關鍵是為政者有沒有政治上的勇氣與承擔去駁斥那些別有用心的歪理！在各說各有理，順得哥情失嫂意的情況下，與其無所適從，不如來個“多多益善，多管齊下”，連消帶打，極大程度地化解了“千萬不要到我後院來”的心態！

當然，在進行多管齊下時，必定烽煙四起，抗議連場，甚至覆核不斷。這是一場必定要打的硬仗。應對覆核，應適時發動輿論攻勢，闡釋“居有定所”是人的最基本權利之一。若被覆核成功，則過在覆核一方，不在政府！

謝謝。

香港土地供應

to: tfls@devb.gov.hk

05/07/2018 17:09

填海

填海是獲取土地最可靠的方法，香港土地供應緊絀，填海工程必須盡快展開。

除了提供土地，填海亦是討價還價工具，不填海沒有土地儲備，政府在其他土地擁有者面前難免抵首下聲處處遷就。

填海另一作用是加快收回土地，對於大面積易發展的現有土地如遊樂場，棕地，私人土地，以至貨櫃碼頭，郊野公園邊陲，甚至郊野公園，可以用將來填出來的新土地交換。如果新土地是用來交換遊樂場，低承重力的棕地，郊野公園邊陲，那麼那部份的填海工程應該不須要十多年便可完成，那些被換出來的現有土地，可以在三幾年內起屋了。

公私合營

公私合營是個好主意，可以在相對較短時間獲取大量土地，增加公營房屋的落成量，減低輪候時間。表面上，擁有大量農地的地主，是最先受惠，到大量的房屋落成後，公屋入住者，新的居屋業主，首置者才是最大受惠者，私樓的樓價升幅亦會放緩，私樓置業者也間接受惠。回看過去，幾個私營大型屋苑太古城，美孚，黃埔，德福、淘大花園等等，都是改變土地用途，建成的樓宇質素，比同區的高，帶來新氣象，更好的生活水平。

發展商投入大資本，成最先獲利者，理所當然吧？帶動同區物業的升值能潛也大增，其他置業者，投資者亦多了選擇，受惠者眾，不必拘泥於甚麼勾結了。況且很多的農地多是80代，30多年前購入的，好幾位投資者早成古人，在世的無九十，也八十尾了，說甚甚麼勾結子虛烏有，倒不如說那些投資者，有眼光，夠實力，可以長久持貨。

由於公營房屋需求殷切，公私合營的前半期應以公屋為主，預留部分予居屋，首置，視乎地區，可容許少量私樓穿插其中，避免天水圍現象。後半期可多建私樓，提高生活質素，並可作為與農地，其他私人土地擁有者的交換條件。幾位發展商已擁有一些農地，討價還價的個體及時間應該比強制收回的土地擁有者為少。

其餘16 選項都是可以日後繼續研究，只有填平部分淡水湖，是可行但不如填海。另外貨櫃碼頭加建上蓋，倒不如填海重新建造更大，更接近內陸，更先進的貨櫃碼頭。

18 選項以外

I. 重新給香港劃疆界

澳門重新劃疆界後，多了85%海面，現正積極填海。

II, 內地在香港週邊大幅填海，再租給香港政府。

到時香港的倉庫，維修，訓練，監獄，墳場，球場，馬場，安老院，療養院...

現時這些設施用地可以建屋毋須與財團，或其他團體討論。

*** End ***

5 July 2018

Re: Submission to Consultation on Land Supply Task Force

I am writing to share my opinion that the government should NOT increase developable land supply by (1) reclaiming areas of country parks, and (2) reclaiming land from private recreation clubs.

I believe that any effort to put downward pressure on property values will ultimately fail over the long term, regardless of governments efforts to increase supply. The belief that a bigger supply results in lower prices assumes that demand remains constant. Yet this is unlikely to be the case. There is substantial demand for immigration to Hong Kong, and any increase in land supply is likely to be offset in a corresponding influx of immigration. The result will be unchanged property values, yet we will see an increase in overcrowding in Hong Kong, increased pollution, increased inflation in the price of general goods and services, and a general deterioration in the standard of living. I believe that this overcrowding will ultimately also lead to political and protests by local residents, who will feel highly dissatisfied with a government that will have failed to deliver on their aspiration for a high quality life.

I believe that the government would do better by managing the demand side of the equation, particularly through the abolishment of the 150 daily one way pass holders.

We should also keep in mind that the run up in real estate values over the past 10 years has been substantially caused by the unprecedented decline in Hong Kong dollar interest rates following the Great Recession of the late 2000's in the United States. Even as I write this, we see interest rates now starting to normalize. Our Monetary Authority has correctly pointed out that this event presents a substantial threat to Hong Kong property values. If the fullness of time, this period of extraordinarily low interest rates will be seen as a transitory, short term event. However, redevelopment of country parks and private clubs would be a permanent move, that could never be rolled back and restored. Likewise the negative impact to quality of life felt by all Hong Kongers through the loss of parkland, clubs, and population surge, would be permanent.

It would be such as shame if the government were to take such a short term view, and do so much permanent damage to our home.

Thank you

VIEW ON LAND SUPPLY OPTIONS

Submitted to
Task Force on Land Supply

PSA (HK) Surveyors Limited

4 July 2018

1.0 INTRODUCTION

Land shortage in Hong Kong has been a long problem since 1990's. The city with limited flat land is however, housing 7.4 million people on 110,000 hectares of land in 2017. In light of the worsening and prolonging land shortage problems, the Task Force on Land Supply (hereinafter referred to as "Task Force") has recently reviewed the problem and released 18 land supply options for public consultation.

We, PSA (HK) Surveyors Ltd., as a real estate consultants and professional surveying firm, would like to put forward our views for the 18 land supply options raised by the Task Force and our comment on alternative means of land supply.

2.0 VIEWS ON THE 18 LAND SUPPLY OPTIONS

2.1 Short-to-Medium Term Options

Option #1	Developing Brownfield Site
Our view	<p>The use of brownfield sites have been one of the government's agenda for a considerable period. However, we see the full development of brownfield site not possible due to their scattering distribution, ownership issue and the need of open-air use.</p> <p>The scattering distributed brownfield site does not favour larger scale, higher density development. Recalling the facts provided by the Task Force, more than half of the brownfield site are scattered in different parts of New Territories, amidst the lack of comprehensive transportation and infrastructures to support higher density development. Though these problems can be overcome with time, developing brownfield site should only be pursued for those site that are more centralised and with closer proximity to infrastructure support.</p> <p>Privately owned and utilised brownfield sites have high uncertainty and costs to develop. Negotiating with different landlords owning the sites takes considerable time and efforts. The landlords can refuse the government offers or greatly increase their ask price. Also, for the utilised brownfield sites, the government still needs to consider the relocation of different industries. Hence, it is not feasible for all the brownfield site to be developed.</p> <p>Given to the above context, we recommend the utilisation of brownfield site that are centralised and nearby to New Town developments which would be more effective for higher density development and can be more efficiently developed making use of the nearby infrastructures.</p>
Option #2	Tapping into the Private Agricultural Land Reserve in the New Territories
Our view	<p>Public-Private Partnership (PPP) is a popular option favoured by many property sector practitioner. We are also open to this option as it is a good way to develop these flat agricultural land efficiently. However, a fair and transparent mechanism between private and public sector must be clearly established to prevent the backfire from the public and concern groups.</p>

VIEWS ON THE LAND SUPPLY OPTIONS

	<p>Private agricultural land is a great source of land as most of them are flat and vacant. The problem is the lack of infrastructure, premium payable by developers and the planning procedures. The government would hence need to build up a comprehensive scheme for PPP development in order to persuade both developers and the public for this development model.</p> <p>There have been strong public voices that the government is doing good for the developer. Hence, such PPP scheme is expected to attract dissatisfaction from the government and high lobbying cost consequently. However, given the high development efficiency of agricultural flatland, and the existence of previous successful examples (e.g. Shatin New Town), we expect the government to look into PPP and derive a fair, open and transparent mechanism.</p>
Option #3	Alternative Uses of Sites under Private Recreational Leases
Our view	<p>We support this option as the government should prioritise public interests.</p> <p>The focus of using private recreational use sites for development goes the Fanling Golf Course (FGC), privately operating golf course by Hong Kong Golf Club. The FGC is situated relatively close to Fanling new town with high infrastructural capacity. It is expected at least part of FGC should be developed for high density residential use to fit the majority interest of Hong Kong public.</p> <p>We recognise the golf club's contribution to the promotion of golf sport and the importance of having an international tournament compatible golf course in Hong Kong. Whilst there is strong public opinion, the government should consider developing the land in FGC and review the lease terms so the clubs will be paying more for their uses.</p> <p>Quite a number of private recreational use sites are located in urban area and that are suitable for residential developments. Some private recreational use sites provide recreational and amenity facilities are similar to those facilities provided by Leisure and Cultural Services Department. We are of view that, for those private recreational use sites located in urban area, having large area and recreational facilities similar to that of Leisure Cultural Services Department, government should consider getting back the land upon expiry of the lease term for future development.</p>
Option #4	Relocation or Consolidation of Land-Extensive Recreational Facilities
Our view	<p>We do not support this option.</p> <p>The land-extensive recreational facilities operated by LCSD are important community facilities to enhance the quality of life of the general public. Also, considering most of the facilities are important green areas in downtown region, they promote health and recreation to the public. Strong public dissatisfaction is expected if these public facilities is to be relocated.</p> <p>Hence, these facilities should not be compromised and considered as an option to increase land supply.</p>

VIEWS ON THE LAND SUPPLY OPTIONS

2.2 Medium-to-Long Term Options

Option #5	Near-shore Reclamation Outside Victoria Harbour
Our view	<p>We support this option as reclamation can avoid land resumption time and uncertainties comparing to other options.</p> <p>Reclamation outside Victoria Harbour, whereas the water with lower conservation value can efficiently provide flatland for different usage. Hong Kong and Singapore in similar context has been adopting this development method tracing along history.</p> <p>Though large-scale reclamation takes time and incurs high cost, the vast infrastructural capacity and avoiding complicated land resumption makes it an appealing choice to increase land supply.</p>
Option #6	Developing the East Lantau Metropolis
Our view	<p>We are open to this option as the ELM project is a great opportunity to leverage the development potential of Lantau Island.</p> <p>Lantau Island has been the core of infrastructural development in HK. Equipping with Hong Kong — Zhuhai — Macao Bridge, Third Runway System for the Hong Kong International Airport and the Tuen Mun — Chek Lap Kok Link, there is high development potential and capacity for new town developments.</p> <p>However, balancing the interests of environmental concern groups and providing sufficient infrastructure would be the key for this development as the current MTR Tung Chung Line's capacity is nearly used up.</p>
Option #7	Developing Caverns and Underground Space
Our view	<p>We are open to this option if the technical issues can be resolved and will not incur long-term maintenance problems.</p> <p>Of the government facilities suggested by the Task Force, the Shatin Sewage Treatment Works is especially worth relocating as it can release 28 ha of prime flatland in a good location with sufficient infrastructure support.</p> <p>It is however needed to consider the long term maintenance cost such as water leakage prevention, air ventilation system and locating a suitable cavern for such a large facility.</p> <p>Given the existing example in Hong Kong, which are welcomed by the public, we believe further studies on this option is viable to increase the land supply, but not treating it as the only option.</p>

VIEWS ON THE LAND SUPPLY OPTIONS

Option #8	More New Development Areas in the New Territories
Our view	<p>We support the development of new towns in the New Territories but a wide range of difficulties is to be expected.</p> <p>New Development Areas has been the land supply strategy since the 1970's accomplishing 9 successful new towns, boosting land supply and shaping the current Hong Kong cityscape.</p> <p>The development of new towns is getting increasing difficult after the millennium era. With land resumption problems and public's discontent with Tin Shui Wai lacking of complementary facilities and NENTNDA development, careful comprehensive planning must be conducted before implementation.</p> <p>On the other hand, we believe moderately expand the existing developed new town like Tai Po, Shatin, Tuen Mun by reclamation or shrinking green belts will be viable options as these new towns are having good accessibility and with different commercial activities for residents to work in, avoiding long travelling patterns for the residents which has been a problem blamed by many NT residents.</p>
Option #9	Developing the River Trade Terminal site
Our view	<p>We support to the development of River Trade Terminal ("RTT") site given its low utilisation rate.</p> <p>The RTT site is close to Tuen Mun city so there is readily infrastructural support to the site and hence the development is expected to be handy albeit most land of RTT is privately owned land.</p> <p>To develop the RTT to accommodate logistic and environment protection related industrial activities from brownfield sites, government needs to manage not to benefit certain developers to avoid accuse of collusion.</p> <p>The development of RTT should also be planned together with the proposed Lung Kwu Tan Reclamation where could be planned to accommodate the logistics and industrial activities currently operated in the RTT.</p>
Option #10	Developing Two Pilot Areas on the Periphery of Country Parks
Our view	<p>We are open to this option, extra information from HKHS's research is needed before making a stance.</p> <p>Country parks take up a large proportion of Hong Kong landmass. They are valuable resources which provide landscape, habitats for wildlife and gathering grounds for reservoirs. Yet, the periphery of country parks with lower ecological value and enjoyment can be considered for development to solve the land shortage.</p> <p>Strong public opinion on opposite must be addressed and infrastructural capacity should also be considered. Hence, HKHS's research would be vital for the society to further discuss on this option.</p>

VIEWS ON THE LAND SUPPLY OPTIONS

No matter the findings from HKHS research on the feasibility of developing periphery of country parks, any future development on the periphery of country park must not have adverse impact to the country parks.

2.3 Conceptual Options

We would like to give a general view on the 8 proposed options. Those conceptual options are still in a very preliminary stage so we believe that it might not be fair and justifiable to completely credit or discredit certain options.

Summarizing the above options, it is noteworthy that there are certain criteria to analyze the options:

Infrastructure capacity, needs for land resumption, current utilization rate of site and is it widely supported by the public or in a diverse manner.

Based on these criteria, we believe that the following options can be considered and further studies:

1. Developing the RTT site and its surrounding in the long term
2. Developing more areas on the periphery of country parks
3. Utilizing the development potential of public utilities sites

A short analytical framework can serve to showcase the analysis:

Conceptual Options	Infrastructural Capacity	Land Resumption	Utilization Rate	Support from Public
<i>Developing RTT site and surroundings</i>	<ul style="list-style-type: none"> • Proximity to Tuen Mun town centre • Main road access 	<ul style="list-style-type: none"> • The surrounding areas can be tricky for land resumption. But generally speaking it is easier than other options 	<ul style="list-style-type: none"> • Current utilization of RTT is low. • However, the surrounding warehouses should be well utilized 	<ul style="list-style-type: none"> • Less controversy than other options which involve complicated land resumption and environmental concerns
<i>Developing more areas on the periphery of country parks</i>	<ul style="list-style-type: none"> • Depends on the site condition • Site formation on slopes can be difficult 	<ul style="list-style-type: none"> • Depends on how many private lots contained in the site 	<ul style="list-style-type: none"> • Depends on site • Should generally be lower than currently popular country parks 	<ul style="list-style-type: none"> • Very diverse opinion from the public
<i>Utilizing the development potential of public utilities sites</i>	<ul style="list-style-type: none"> • Depends on site condition • Most of them is in town so it is generally better 	<ul style="list-style-type: none"> • Easier • Usually it involves single owner or is government land 	<ul style="list-style-type: none"> • Depends on site 	<ul style="list-style-type: none"> • no strong public opinion

IEWS ON THE LAND SUPPLY OPTIONS

Conceptual Option: Topside Development of Existing Transport Infrastructure

The conceptual option of topside development of existing transport infrastructure may involve various technical and interface issues, in particular for housing development. Instead, government can study the feasibility of topside development for the relocation of existing recreational facilities and landscaped park in town so as to release the land of those existing recreational facilities for housing development.

Conceptual Options: Relocation of Kwai Tsing Container Terminals and Topside Development of KTCTs

Whilst we are open to the topside development of KTCTs, it involves many technical issues and environmental problems such as noise, air and light pollution that need to be effectively tackled before planning any future housing development. In long term, government should consider relocating part or whole of KTCTs and release such land for future housing developments.

We have to stress that it is not appropriate for us to pick or ban the 8 options. We are looking forward to the further studies to be conducted by the government. The land supply problem in Hong Kong cannot be solved with just one strategy so we believe the task force should be open to different concepts.

3.0 OUR SUGGESTIONS ON LAND SUPPLY

3.1 Our Suggestions on Land Supply

To accelerate the land supply in Hong Kong by all means and to provide immediate relief measure to the intensifying housing problem, we would like to provide our suggestions as follows for government consideration.

1. To accelerate the process of land premium when it comes to development of agricultural land or change of land use.
 2. Government should study to identify new location for new development area ("NDA"), conduct comprehensive planning and resume the land within planned area for new town development. Government should consider increasing the compensation rate of land resumption in order to reduce the resistance from land owners and occupiers, no matter the affected people are individuals, villagers or developers. Standard rate of compensation amount could be considered by the government. Land resumption should be conducted as a whole for the NDA.
 3. Sai Tso Wan at the western coast of Tsing Yi are currently occupied for oil depot and special industrial activities uses. The area is close to Tsing Yi downtown with good infrastructure facilities. Government could consider this area as land supply for housing development in long term. Relocation of existing industrial activities is required, say relocate to proposed Lung Kwu Tan reclamation area. Government has to negotiate with existing land owners and occupiers and it involves land resumption and compensation.
 4. Provide more incentive to encourage owners and occupiers of old buildings to sell their units to URA in order to accelerate the rate of redevelopment in ageing urban districts.
 5. Currently there are over 200 cooperative buildings in Hong Kong. Most of them are over 50 years old and not fully utilized development potential as allowed under town planning zoning. Some of them are in urban
-

VIEWS ON THE LAND SUPPLY OPTIONS

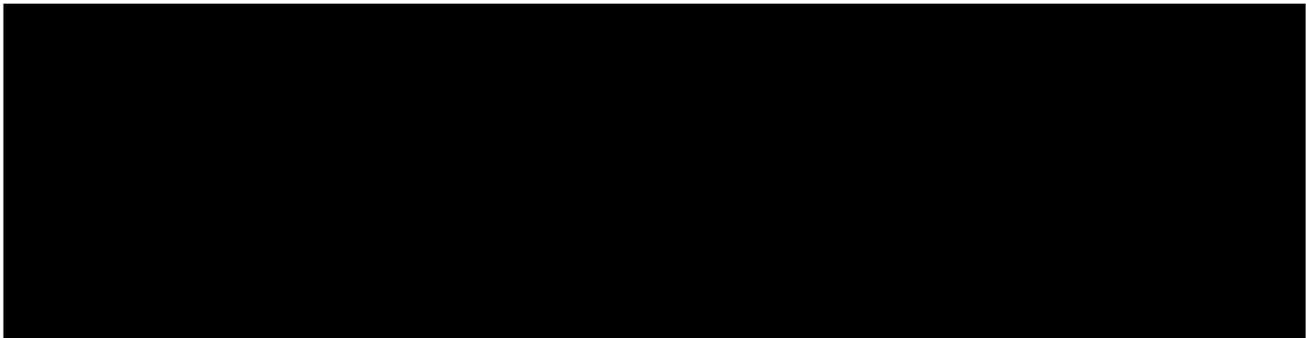

area and worthy of redevelopment for housing supply. Government should take initiative to resume the land of suitable cooperative buildings for subsidiary housing developments.

6. In planning new development area in New Territories, Government could adopt a higher development density (or plot ratio) of the area so as to provide more GFA to accommodate more population provided that sufficient capacity of infrastructure and utilities, and supporting facilities are available.
7. Under acute housing shortage circumstance, government should consider allocating more land supply for public housing, say 70:30 for public to private housing. It would help to ease the complaint from general public and foster a healthy property market in Hong Kong.
8. Apart from land supply, existing stock of subsidized housing can be better utilized for public housing supply. Under current policy, owners under home ownership scheme ("HOS") can sell their flats on open market after 5 years from the date of purchase and payment of land premium. This reduces the existing stock of HOS flats for needed people. Government should modify the HOS policy and cancel the land premium arrangement to avoid HOS flats entering into private residential market. HOS flats should be sold back to the government or needed people under green form application arrangement.

Yours Sincerely

我是贊成用填海增加住宅供應的，但須知選址與建設及交通網絡需要時間更長！不能解決燃眉之急，也需要投放大量資金！而估計市區重建舊樓是比填海更快又更實際可行！只要可讓舊樓業主以樓換樓形式或資金補償。

而政府斥資30億資助50年以上樓齡2500幢維修！為何不善用資源將這30億投放舊樓重建，尋找接近56年或以上樓齡的樓，由市建局收購重建，而該樓的規模需以地積比例計算可增大多2倍或以上的供應，

或甚至乎能利用現有空間擴展例如車場等.....，便可以增大供應。

而樓換樓方案，參與重建的發展商其實亦不需要提供名牌電器！（好像寶翠園的合作社）只要單位平實便可以，這樣2500幢舊樓，若抽出其中1000棟重建已經不是很好的嗎？還有市區的地本身已配備了交通網絡及其他完善的配套。

其實現在有很多舊樓群的業主，很想得到發展商或市建局的收購，更換比較優質的物業，但每每都是因為市建局之前訂下的八成業權及以七年樓齡補償計算！

補償方案應參考同區15年樓齡，我總是不明白市建局為何要以7年樓齡的價錢吸引舊樓的業主換樓！難道他們50多年的樓還可以與15年的比較嗎！

至於成數方面，不是多數服從少數嗎？為何要以8成不是六成半計算？要知道這麼多年的樓有些業主可能已移居海外根本不能找到的！

在這為何只得市建局收樓的業主才可以豁免雙倍印花稅？

另外一提，現在有個別發展商將項目以招標形式出售，這祇會助長推高樓價，既然樓花價錢要三天之前出價給買家選擇，為何不可設定發展商需要以真實價錢公開銷售呢？

Re: Land Supply Options – alternative uses of sites under Private Recreational Leases (PRLs)

Dear Sir/Madam,

I am writing as a young member of the local sailing community, as well as a member of the city that has become my home, with regards to the potential reclamation of PRLs.

I am concerned with the impact the proposed option would have on sports clubs such as the Royal Hong Kong Yacht Club (RHKYC) and, in turn, in the development of sailing in Hong Kong. My interest in sailing began in Hong Kong and I owe my progress in the sport to the RHKYC. Of the many facilities and services provided by the RHKYC, the regular racing competitions and training courses organised by the RHKYC have been key to my development. Further, the RHKYC has been able to promote sailing, and all the benefits it has to offer, to younger members of the local community through initiatives run by the RHKYC Young Members Sub-Committee (YMSC). This includes the sail racing training days which are open to non-RHKYC members free of charge and I have personally introduced many non-RHKYC member friends to such events.

The proposed land option would not only stifle Hong Kong's advancement in the sport but also have a disproportionate impact on younger members of the sailing community. It would not have been practically possible for me to make use of all the RHKYC has to offer to improve my sailing skills if I were not offered the services and facilities of the RHKYC. The activities of the YMSC to foster an active young community of sailors and other water based sports, which is possible through the RHKYC's status quo, would also be similarly impeded.

As such, I strongly appeal to the Land Supply Task Force to reconsider its proposal on PRLs.

Yours faithfully,

Bo Ram LEE

Task Force on Land Supply consultation process - personal submission

██████ to: tfls@devb.gov.hk

05/07/2018 12:07

Dear Sirs,

I welcome the public consultation process and would like to make this written submission with respect to the option of "Alternative Uses of Sites under Private Recreational Leases" which has attracted attention in respect of the Hong Kong Golf Club at Fanling. While I was born overseas, I have lived and worked in Hong Kong for 32 years and raised a family here. Hong Kong is very much our home and we intend to stay here.

Due to the natural constraints on space in Hong Kong, it is understood that the Government has difficult decisions to make on land supply and it is not possible to satisfy all parties on the issue. I hope that you will accept my submission as someone with the genuine long-term interests of Hong Kong at heart.

By any comparable international standards, Hong Kong lacks sporting and recreational facilities for its population. The increase in the population that is a major factor in the strain upon housing supply, will in time, be a pent-up source of demand for the sporting and recreational facilities that are to some extent lacking here. No one is arguing that a roof over peoples' heads is less important than such facilities, but a Government with the wisdom to look after the quality of life of its citizens will find a way to resolve the housing issue without removing sporting and recreational facilities that enhance the quality of life of its people. This is especially so, on a site of great ecological value and a green lung close to a built-up urban area.

It is notable that golf is a sport played in great numbers by both sexes and people of all age groups. However, I would like to focus on one particular demographic as an older person in the community. According to the Census and Statistics Department's 2017 study of Hong Kong Population Projections, between 2016 and 2036, the population aged over 65 will more than double by over 1.2 million between 2016 and 2036. This trend will also be mirrored in the over 40 and 50 age groups too.

For many Hong Kong people, golf is their major form of exercise and the facilities at Fanling are an extraordinarily valuable asset to facilitate well-being and enhance quality of life. As we get older, there are fewer sporting activities open to us and golf plays a vital role in maintaining health and fitness. From an economic point of view, any measures a Government takes that extends the useful life of its population, increases GDP significantly. While golf is a minority activity, its promotion should be a component of a sensible Government policy to promote the well-being of an ageing population. While there have been ill-informed comments in the press about Hong Kong Golf Club being an elitist institution, it in fact provides a very substantial amount of access to members of the public at broadly similar cost to the public facilities provided by the Jockey Club on Kau Sai Chau.

Another asset of Fanling that is less visible but significant, is that the courses there are crucial to providing a critical mass of facilities for inbound golf tourism to Hong Kong. Without these, there would be significantly fewer golf tourists to Hong Kong, and those that do, would spend less time here. International studies show that golf tourists spend more money and time in their chosen locations than other types of visitor, multiplying their value compared with short stay low-end tourism.

It is clear that any perceived short-term benefit of making a very small dent in the housing issues facing Hong Kong, will be of little value compared with the long-term consequences of permanent loss of a valuable ecological site that will do much to enhance the well-being of the population over a long period. There is no doubt that facilities such as those at Fanling will be in greater demand over coming decades. The cost of building similar facilities to accommodate demand would be huge in comparison to any perceived opportunity cost of maintaining the current Fanling site.

Yours faithfully,

David Taylor

Land for Hong Kong: Our Home, Our Say!

Response to consultation paper

Introduction

1. The commission should be complemented on the thorough compendium of facts and options, which provides a fascinating background to Hong Kong's housing and land problem. While it is admirable to get feedback from the community these are highly complex matters, so I hope that public views will only be a small component of the process of reaching a conclusion.
2. It is clear from the consultation paper that the current problem is the result of 20 years of poor planning and even poorer implementation. I remember a target for 80,000 homes to be build a year was set 20 years ago. Unfortunately it was not implemented as the statistics presented clearly show. There has been a period of extraordinary failure of public policy that is difficult to correct in a timely fashion. However it seems to me that there is no inherent problem in finding a solution.

Options that do not make sense

3. It is quite easy to say which of the 12 options presented do not make sense:
 - a. Developing existing recreational facilities makes no sense. Not only is more recreation important for individual and community health, reducing such facilities is contrary to the broad needs of Hong Kong. Number one strategic priority must be to keep Hong Kong as a world city in the eyes of the world. It is a tough objective when other cities have raced forward at a faster pace. A world class city needs to excel and have excellent facilities that are not necessarily "needed". Examples are an opera house, orchestras, concert halls, sports stadia and facilities. Our most conspicuous historic sporting facility is the Hong Kong Golf Club. It has a very long history and hosts world class tournaments sponsored by world class institutions. To use any part of it as "land supply" would be pure, totally unnecessary brutal vandalism.¹
 - b. Agricultural land should not be considered for redevelopment unless it is part of a broader plan, such as a new town. People want fresh, organic food, so agriculture in Hong Kong should be encouraged. Not only for good food, but agricultural land provides a green break from development that is highly desirable because it makes life more livable.

Alternatives that make sense

4. It is relatively easy to say what makes obvious sense:

¹ There is controversy about the governance of the Golf Club, but that is not a land supply or planning matter.

- a. Reclamation is the most obvious source of large areas of land to create new cities for working and living. The East Lantau Metropolis is a specific example. It may take a long time to get results from reclamation, but without making the first step the final destination will never be reached. It is striking that up to 1997 a new town was created about every five years (many on reclaimed land), but none since. Reclamation is part of Hong Kong's heritage. Brownfield sites need to be incorporated in new towns too.
- b. Increasing the density of "Village Type Development" should be relatively simple. It is very odd that so much land is devoted to three storey single family houses.
- c. Developing the periphery of the country parks is also an obvious place to build. No-one wants to destroy beautiful areas, but there are areas designated as "country park" that are not in beautiful locations and are scrubby. There is no reason that such areas should not be re-designated and developed.
- d. Development on top of transport and public facilities also has a long successful history in Hong Kong and should be done wherever practicable.
- e. Placing public infrastructure in caverns and caves is very sensible: not only is above ground land made available, the appearance of the city is enhanced by not seeing industrial facilities.

Other proposals

- 5. Of the other proposals my view is:
 - a. Development above the Plover Cove reservoir is a fascinating opportunity. Creating cisterns to supply cities with water has a long history (for instance the Basilica cistern in Istanbul; and even in Hong Kong there are tanks for floodwater such as under the Happy Valley race course). There should be no reason development above the huge cistern that is Plover Cove should affect the water supply. The atmosphere of a "country city" at Plover Cove could be made magnificent.
 - b. Redeveloping the container terminal and river trade terminal are surely connected with the Greater Bay Area project. Most likely, taking the Bay as a whole neither are most appropriately located in Hong Kong, and could be moved to more appropriate parts of the Greater Bay Area in due course. Building above the existing container port is not practical – it would be unsightly and expensive.

General remarks

- 6. Reading the consultation one is struck by the convoluted way land policy has been managed. It is a slow and cumbersome process in which decisions on arcane practices²

² An example is on page 16 referring to concept of "plot ratio" applied blindly to redevelopment leading to the need for additional land,

are not made in a timely fashion. The whole process needs to be reexamined and redesigned to be more efficient, flexible and purposeful.

7. It is also striking that the Hong Kong government does not have a coherent housing or land policy in the sense that the interests of the user are not considered in decision making. The result can be seen on page 22 which shows that the living space per person in Hong Kong is half that in Shenzhen and Singapore. This is a terrible policy failure.
8. The basis of Government policy should be changed to define outcomes, not just try to maximize the proceeds from selling land. The minimum size of the apartments to be built should be specified considering the needs and expectations³ of citizens; and the time allowed for construction and sale (which should be with a price list for the whole development at one time, to prevent price manipulation) must be specified. Consideration should be given to fixing a permitted range of selling price when the land is bought so the developer's interest is efficiency, rather than constantly rising property prices.
9. Another thing to be considered is replacing the current "land premium" paid in advance with a "development profit tax" paid in arrears. It might encourage smaller developers to build and thus improve choice and the market; and bring land forward for development as a complaint of potential developers is that the land premium quotes are often too large to make a project viable.
10. Why should public housing units be built in estates separately from private estates? When land is sold the government should specify the mix of public and private units the developer must build. Co-location of privately own and government rental property would aid social cohesion.
11. The major failure of government policy has been to conduct policy as just selling land with a development envelope without specifying the size and quality of final product. A successful bid for land should include design and fitness for purpose: bidding the highest price per square metre for land should be no longer sufficient to win.
12. To have any chance of meeting the requirement for land in a timely fashion there needs to be a "super" ministry that can cut through bureaucracy and co-ordinate between government departments to force a conclusion⁴.

This is written by a private individual, long resident in Hong Kong, who has read the consultation paper closely.

VFM

5 July 2018

³ i.e. as a matter of public policy flat size should be increasing over time.

⁴ Examples in paragraphs 3.3 (transport) and 3.8 (PlanD, LandsD, and Buildings Department).

Charles Lau對土地供應選項及相關議題的意見
██████ to: tfls@devb.gov.hk

05/07/2018 23:58

請不要發展郊野公園邊陲地帶兩個試點及其他邊陲地帶地點

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港市民難得的叫氣地方。

請土供組如實向特首林鄭月娥反映市民訴求，規劃棕地，保護郊野邊陲地帶。

順祝 台安！

Tom Mulvey's suggestions on Land Supply - Country Parks should never be an option for development

██████ to: tfls@devb.gov.hk

05/07/2018 23:34

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development (whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Tom Mulvey

Arthur Choi's suggestions on Land Supply - Country Parks should never be an option for development

██████ to: tfls@devb.gov.hk

05/07/2018 23:22

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development (whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Arthur Choi

不應發展郊野公園邊陲地帶，守護大自然

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港市民難得的叫氣地方。

衷心希望土地供應小組接納意見，要求政府改善規劃，保護珍貴的自然環境。 感

謝！

Ivan Chan's suggestions on Land Supply - Country Parks should never be an option for development

■■■■ to: tfls@devb.gov.hk

05/07/2018 18:00

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development (whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Ivan Chan

不應發展郊野公園邊陲地帶，守護大自然

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

衷心希望土地供應小組接納意見，要求政府改善規劃，保護珍貴的自然環境。

祝願 閣下生活愉快！

Jonah Skinner's suggestions on Land Supply - Country Parks should never be an option for development

██████ to: tfls@devb.gov.hk

05/07/2018 14:38

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development (whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

愛護自然，不應發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須

優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性 選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

本人希望土地供應小組向政府反映本人意見，保護香港的自然環境。 謝

謝！

優先發展棕地，無須發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港市民難得的叫氣地方。

本人期望土地供應專責小組能將本人意見進一步反映予政府相關部門，讓香港能真正落實可持續和以人與生態為本的發展規劃。

順祝 國泰民安！

Zena Deal's suggestions on Land Supply - Country Parks should never be an option for development

██████ to: tfls@devb.gov.hk

05/07/2018 12:08

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development (whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Zena Deal

政府必須停止研究發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性 選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

請土供組回應香港人的訴求，優先發展粉嶺高球場，解決基層上樓問題。 萬分感

謝！

優先使用棕地，守護自然郊野及郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府必須優先使用棕地和私人遊樂場地契約用地，有研究已經指出，香港的棕地及粉嶺高爾夫球場等已經足以應付香港未來的房屋需求。

政府不應發展郊野公園兩個試點作為中長期選項，不應研究郊野公園邊陲地帶其他地點，亦不應考慮在維港以外填海，因為填海將破壞海洋生態。

請土供組如實向特首林鄭月娥反映市民訴求，規劃棕地，保護郊野邊陲地帶。

祝願 閣下生活愉快！

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development (whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Susan Hayden

Karen Lam對土地供應選項及相關議題的意見
to: tfls@devb.gov.hk

05/07/2018 09:46

先用棕地，糾正規劃問題

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須
優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個
涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港
市民難得的叫氣地方。

本人期望土地供應專責小組能真的能保護我們的環境，也能讓市民安居樂業。

順祝 生活愉快！

Danielle Lee's suggestions on Land Supply - Country Parks should never be an option for development

■■■■ to: tfls@devb.gov.hk

05/07/2018 05:40

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development (whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Danielle Lee

Denis Li 對土地供應選項及相關議題的意見
to: tfls@devb.gov.hk

05/07/2018 03:50

土地供應的選項不應包括郊野公園邊陲地帶和填海

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

希望土地供應小組聆聽民意，促請政府改善規劃，令市民真正安居樂業。

祝願 閣下生活愉快！

填海和郊野公園邊陲地帶都不應成為發展和土地供應的選項

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

本人希望土地供應專責小組虛心接受市民的意見，無須開發郊野公園邊陲地帶。

謝謝！

不應發展郊野公園邊陲地帶，守護大自然

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須

優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。

郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶），及在維港以外近岸及東大嶼填海，不能被視為增加土地的選項，當局亦應小心處理農地等其他天然資源，因為我們要尊重大自然。

衷心希望土地供應小組接納意見，要求政府改善規劃，保護珍貴的自然環境。 敬

祝安好！
