土地供應的選項不應包括填海和郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。 這將有助釋放土地資源。

郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶），及在維港以外近岸及東大嶼填海，不能被視為增加土地的選項，當局亦應小心處理農地等其他天然資源，因為我們要尊重大自然。

改善規劃，用好棕地

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。 因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶），及在維港以外近岸及東大嶼填海，不能被視為增加土地的選項，當局亦應小心處理農地等其他天然資源，因為我們要尊重大自然。

因為郊野公園是香港市民難得的叫氣地方。 請土供組如實向特首林鄭月娥反映市民訴求，規劃棕地，保護郊野邊陲地帶。 敬祝安好！

土地供應的選項不應破壞自然和郊野，包括填海和郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局必須首先善用棕地，及私人遊樂場地契約用地，釋放現有的土地資源。 因為棕地可以快速解決公營房屋需求。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個 涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港市民難得的叫氣地方。

Suen Yin Wan's suggestions on Land Supply - Country Parks should never be an option for development

21/08/2018 08:54

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Suen Yin Wan

土地供應的選項不應破壞自然和郊野，包括填海和郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

此舉有助改善新界的環境及令土地用得更有效率。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

因為郊野公園就是郊野公園，沒有所謂邊陲地帶。 請土地

優先發展棕地，無須發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。 因為棕地同樣是珍貴的土地資源，政府必須規劃分配。

郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶），及在維港以外近岸及東大嶼填海，不能被視為增加土地的選項，當局亦應小心處理農地等其他天然資源，因為我們要尊重大自然。

因為我們不能犧牲郊野公園的重要生態和生物。 本人希望土地供應小組向政府反映本人意見，保護香港的自然環境。 順祝 國泰民安！

愛護自然，不應發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。 因為發展棕地是大勢所趨，最能回應市民上樓的需求。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個 涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港市民難得的叫氣地方。

優先發展棕地，無須發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

因為政府應糾正棕地零亂擴散的現象，好好規劃。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港市民難得的叫氣地方。

優先發展棕地，無須發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。

因為棕地欠缺規劃及管理，若能善用，相信可以應付急切的房屋需求，為香港提供土地資源。

政府不應發展郊野公園兩個試點作為中長期選項，不應研究郊野公園邊陲地帶其他地點，亦不應考慮在維港以外填海，因為填海將破壞海洋生態。

因為我們不能犧牲郊野公園的重要生態和生物。 請土供組如實向特首林鄭月娥反映市民訴求，規劃棕地，保護郊野邊陲地帶。 敬祝安好！

愛護自然，不應發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府必須優先使用棕地和私人遊樂場地契約用地，有研究已經指出，香港的棕地及粉嶺高爾夫球場等已經足以應付香港未來的房屋需求。

此舉有助改善新界的環境及令土地用得更有效率。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

擔心有了高鐵，方便了大灣區的同胞來港買樓，所以希望政府實行限購令。禁止外地人買港樓，才會令樓價平衡發展。

建議政府要重提“十年建屋計劃”不變，令市民有希望，知道政府沒有取消計劃。

Dear Sir / Madam,

I do not agree with the Task Force on Land Supply's proposal to release the sites currently retained by the private sports clubs for other purposes. I found the private sports clubs contributing greatly to the sports development in Hong Kong. Therefore, the sites currently retained by the private sports clubs should not be released for other purposes.

Dear Mr Wong,

We are a trade association established in 1920 representing **260** registered building contractors and listed construction companies in the government approved list plus **50** associate members carrying out business in Hong Kong. In July, we conducted a members' survey to collect their views on your proposed land supply options and consolidated herebelow the survey results for your information and consideration.

HKCA Members' top choices for short-to-medium term supply options are developing brownfield site, followed by tapping into the private agricultural land reserve in the new territories. With regard to developing brownfield site, the need to provide alternative space for storage and servicing of construction equipment and materials have to be reasonable resolved.

HKCA Members' top choices for medium-to-long term options are near-shore reclamation outside Victoria Harbour, followed by more new development areas in the New Territories and developing the East Lantau Metropolis.

HKCA Members' top choice for conceptual options is developing more areas on the periphery of country parks.

The other noticeable opinions collected from our members that are outside the 18 proposed options are listed herebelow:

- increase the scope and function of the URA
- relocate the prisons to outlying island to spare current sites for housing
- build on land fill
- reclaim Kwun Tong typhoon shelter and water strip along Kai Tak old runway
- redeveloping Fanling golf course not only is a low economical choice, it is damaging to the reputation of Hong Kong as an international city.

.../P.2

At our Council discussion on the survey result, HKCA concluded that no single option could meet the land supply needs but **reclamation (and in a substantial scale) must be a choice** since we believe it is an economical option that also avoid problems associated with relocation and land titles.

Yours sincerely,

香港復康聯盟對土地供應策略及選項優次的建議

香港復康聯盟（下稱「康盟」）是由不同殘疾類別人士組成的組織，一直關注與殘疾人士有關的政策。行政長官林鄭月娥女士在剛上任不久之際，已成立土地供應專責小組，檢視土地供應的來源和長遠面對的土地短缺問題，反映問題根深柢固。康盟故特致函表達殘疾人士對復康用地的需求，並期望未來土地供應能照顧社區老齡化和殘疾人士與日俱增的復康及支援需要。

康盟認為長期土地短缺問題非一日之寒，而且對土地供應有需求不止市民住屋需要；多年來，復康或殘疾人士組織在社區尋找地方和興建設施時，都會遇到不少阻力，地區人士擔心精神病康復者威脅社區安全而反對設置精神健康綜合社區中心，截至 2018 年 2 月，全港 24 個精神健康中心，只有 15 個已有永久會址；社會福利署曾要求將長沙灣潤發貨倉、嘉里鴻基貨倉重建用地其中一成政府用地，興建殘疾人士社交中心等社福設施，惟對方以「自閉症人士支援中心」仍為試驗計劃，拒絕預留用地。

此外，市民不接受有情緒或行為問題的學生而反對群育學校遷校；發展商因缺乏企業社會責任及利益考慮而拒絕續租予社福機構等，亦屢見不鮮。社會上房屋土地供應緊張，社福用途的土地供應就更緊張，可供復康或殘疾人士組織選擇的地點少之有少，而且面對這些來自地區人士和發展商的阻力，都嚴重阻礙組織的長遠發展和不能滿足社會需求，令復康服務的發展舉步為艱。

香港復康聯盟

Rehabilitation Alliance
Hong Kong 25th Anniversary

康盟認為社會正值老齡化，未來對復康和殘疾人士設施的需求會急增，既然政府現在正研究長遠增加土地供應的方法和策略，就應更重視殘疾人士的需要，預留充足土地設置精神健康綜合社區中心、自閉症人士支援中心等。此外，政府亦可以參考其他海外城市的做法，如南韓首爾市政府，善用已有基本交通及社區配套的空置校舍或政府建築物，改變土地用途，由教育用途轉變為社會福利用途，改為提供殘疾人士或長者院舍住宿，或廉價租用予自助組織及社會企業，這樣情況下，可有效地善用社區現有資源，並可短期內見到成效，舒緩復康用地需求緊張的問題。

使用現有空置建築物，無疑能解土地供應之燃眉之急，但難以應付與日倍增的復康需求，故政府應考慮釋放部分現有政府用地或收回棕地，增加土地供應，興建殘疾人士設施綜合大樓，以極優惠租金租予自助組織及社會企業，展現政府支持殘疾人士服務的工作和發展的決心，改善現時殘疾人士或病友自助組織「寄居」於較大規模組織的生態。此外，提供足夠的土地外，亦需注意選址的無障礙情況、可達性、交通和社區配套，使殘疾人士得物能有所用。另外，在土地供應專責小組進行諮詢的過程中，應充分了解不同界別的持分者的立場和需要，扮演更積極正面的角色，讓公眾掌握和了解。

最後，康盟期望政府制定增加土地供應的短中長期策略時，需要正視殘疾人士社區支援和復康的需求，在增加興建房屋用地的同時，萬勿遺忘殘疾人士復康用地需要。如有任何查詢，

**Hebe Haven Private Recreational Lease**

22/08/2018 20:13

From: [REDACTED]
To: tfls@devb.gov.hk

To; Secretariat, Task Force on Land Supply, 17/F, West Wing, Central Government Offices,
2 Tim Mei Avenue, Tamar, Hong Kong

Dear Sir/Madam,

I understand that the HK Government are consulting on proposals to withdraw the Private Recreational Lease for Hebe Haven Yacht Club and opening the site to developers for housing development.

Withdrawing HHYC's private recreational lease would be a tragedy for the local people of Hong Kong for the benefit of a few wealthy property investors.

Hebe Haven provides sailing and social opportunities to the public, to school children and disabled people and helps hundreds of Hong Kong people who would otherwise not have access to sailing.

It provides employment to more than 50 people in the local community through boat yard operations, restaurant and bar facilities and office administration. In addition to this it provides work and opportunities to a wide range of local businesses which have grown up to support the club and boat owners.

It raises millions of dollars for local charities through events such as the 24 Hour race and benefits the local environment through events such as beach clean up days.

It is also the organiser for a large number of local and international sailing events, which put Hong Kong on the world circuit as an international destination.

All this is provided free of charge to the Hong Kong Government and paid for by HHYC members subscriptions.

Losing HHYC would lose Hong Kong all of these benefits.

Hong Kong stands apart from the Mainland in providing a broad base of affordable, recreational facilities to the residents of Hong Kong of an international standard, special places like HHYC. This makes Hong Kong a place where people want to live and invest.

I help companies who set up operations in Asia, Hong Kong and China and the final choice of location often comes down to personal and family considerations about the attractiveness of the location to the senior management who will base their families there.

Do not risk Hong Kong's future by destroying the very things that give Hong Kong its competitive advantage over other places in the region.

Land Supply Public Consultation - My Opinion

22/08/2018 18:38

From:

To:

tfls@devb.gov.hk

Dear Sirs,

I have responded to the survey via your website and would like to set out my views in more detail:

Country Parks and Recreational Land not an Option

Please leave our country parks and the land now reserved for recreational use untouched! There are so few of these open spaces left in Hong Kong, and whilst it is important to address the shortage in land supply in Hong Kong, it is important to find solutions that do not turn our city into one that is nothing but bricks and walls, making it even more unlivable than it already is now.

Even the private recreational clubs have their purpose in society and many are committed to promoting development in various types of sports and other charitable events, putting Hong Kong in a positive light in the global arena. It is a shame that certain tabloids have, for their own ulterior motives, sought to undermine the value of these private recreational clubs and make nonsensical suggestions such as imposing a land premium equivalent to one-third of the market value on their future leases. These recreational clubs are expensive to run; they operate at their own expense and do not have the benefit of government funding. In order to continuously provide quality facilities and training necessary for nurturing aspiring players and staging international sporting and charitable events, they require support, and the least that the Government can do is to provide the physical grounds for their operations at a nominal cost. I sincerely hope the Task Force will not let the short-sighted views of some self-interested groups affect your better judgement, and come to recognize the need to provide the support required by these recreational clubs to continue to nurture sports talents and maintain Hong Kong's standing as a world-renowned host for international sporting and charitable events.

I can see that many of the options that the Task Force identified do not involve encroachment into our country parks and recreational land and I urge the Task Force focus on looking into these options as a long-term, sustainable solution to the shortage in land supply. I grew up and spent most of my life to date in Hong Kong – this is the place I call home and I would hate for our next generation to lose the little breathing space there is left in Hong Kong!

Relieving Demand on our Tight Resources

Restricting demand is obviously another way of tackling the issue of land shortage and should be given proper consideration. If Hong Kong is already running short of land to house its current residents, this should be sufficient cause for a review of its immigration policy, particularly the One Way Permit Scheme. It has been widely reported that the current policy is being exploited by many that see it as a business opportunity, and there have been numerous cases where these permits have not been acquired for genuine family reunion purposes. The Government has a duty to investigate these reports and improve its policy. Whilst there should be a quota for the number of permits that can be granted on a daily/monthly/annual basis (and there is arguably potential to reduce this quota), such quota need not be filled and permits should only be granted on an as-needed basis. Applications

ought to be assessed more carefully against a more stringent protocol, with proper investigations conducted on the identity of applicants to eliminate the loopholes in the current system.

Many foreign countries have recently tightened their immigration policy in light of the strain that immigrants are putting on their finite resources, and it is about time and totally within reason for Hong Kong to follow suit. Take Singapore for example, a significant proportion of permits granted to immigrants are now reserved for those who are proven to have the ability to sustain themselves financially or possess certain skill-sets that are lacking in the current work force.

Surely if there is a reduction in overall demand for our land, the amount of land required to meet Hong Kong's long-term needs will be less than what is currently estimated? Demand and supply are relative concepts and I do not think this option should be brushed off lightly if the Government is serious about tackling Hong Kong's land shortage issue.

Conclusion

I am in total agreement with the Task Force's comments that "Land development takes time; there is neither a single option that can solve the overall land supply problem, nor a perfect solution", and that "a multi-pronged approach is therefore required to increase land supply".

I believe the Government should act in accordance with this spirit and consider all options from both the demand and supply perspectives as described above (and weigh the pros and cons of every option), with a view to adopting a truly sustainable approach in the long-term that is in keeping with the changing needs of our society and in the best interest of Hong Kong residents.

Yours sincerely,

Public Consultation on Policy Review of Private Recreational Leases (PRLs) & Task Force on Land Supply

Dear Sir / Madam

RE: Public Consultation on Policy Review of Private Recreational Leases (PRLs) & Task Force on Land Supply

Private Sports Clubs continue to play an important role in sporting development and provision of recreational facilities in Hong Kong. I am very concerned should there be any major policy changes that could seriously alter the scene.

My views on the above two consultation papers are:

[REDACTED]

"Task Force on Land Supply": There are plenty options for large scale land acquisition eg., reclamation of the reservoirs and sea, NT lands 棕地 etc. HK won't be a world city if it hasn't got these private clubs for the middle classes and expatriates. It will have difficulties in attracting talents to HK. Furthermore the joining of a private club provides an upward mobility incentive for hard working professionals.

Thank you for considering my responses.

Yours sincerely,

1. 反對透過開發「部份郊野公園及／或填海」的人士常常提出的一個口號，是「大自然一旦遭受破壞便無法復原」。但從香港的人口史來看，絕對是一個偽命題。過去百多年開發得來的約270平方公里的建成區，正是「香港及新界原居民及其後代」以外的，新增外來移民人口：即大部份市民的上幾代祖、父輩的安居立命之所。若他們的祖、父輩沒曾移居香港，即今天也不會有他們的出現及反對，這是一個哲學問題：有雞先定有蛋先？（同樣邏輯也適用於現今的所謂「港獨派」）

3. 1898年英國租借新界時，包括新九龍在內，總人口為102,254人，這裡基本上是農業區，分布700個村莊和一些墟市，主體居民世代以務農為生，土地為他們最主要生活依靠。

4. 目前，新界的人口已占到全香港總人口的一半。根據2011年香港人口普查，新界人口有3,691,093，佔全港人口的52.19%。（最新的統計處數字，香港總人口剛超過七百四十萬）

5. 早年由於在九龍和香港島地區聚集了全香港絕大部分的人口，令新界地區成為香港發展中的後進地區。直至二十世紀後半期尤其是在八十年代以來，由於香港舊區過度擁擠的狀況越來越嚴重，在香港城市發展空間有限的情況下，香港舊區人口承載趨於飽和、且發展空間無法擴張的情況下，新市鎮的發展便迎合了香港對人口及土地的需求，從而使得新市鎮在二十世紀七十年代以來尤其是近20年以來得到前所未有的發展，並令新界地區人口的持續增加。新界是香港面積最大，發展空間最充足的一個區域，香港的新市鎮包括了在新界地區的各個新興區域及各個大小離島的新興區域，包括如荃灣、葵涌、沙田、屯門、青衣、大埔、元朗、上水、粉嶺、將軍澳、馬鞍山、天水圍、東涌等等。

6. 香港彈丸之地，市民住屋擠迫，人均面積只有 170方呎；工商業承受著高昂租金，各行各業營運成本高企，創業更是舉步艱難。寸金尺土，本港休憩用地稀缺，運動場所如球場也被充作建樓，市民舒展空間少，精神壓力大。港府無論在提升醫療、安老服務、文化事務，均見用地足襟見肘。土地所限，也制約了香港未來發展，我們如何突破？

7. 增闢土地乃必然的王道之選，但反對派及利益集團，往往帶住政府及廣大市民遊花園，出現以下這樣的首尾相迫的情況：

『未來：向左走？向右走？以下雖然是尚喜學編出來的段子，但基本上反映了香港報紙每天討論的話題：

香港政府看見李顯龍要大面積填海，就說：你看人家新加坡，說填海就填海，我們也要學習啊，再不抓緊我們就落後了！

環保主義者不幹了，說：不行，你們會把可愛的中華白海豚嚇跑的！你

們政府就是不敢碰硬骨頭，那麼多空地，新界那麼多棕土，你們不去征，你看人家新加坡征地多犀利！

於是政府跑到新界東北發展區去征地，結果當地的農民不幹了，說：我們不要高樓，我們要鄉村式發展，我們要農地！你們要拆我們非原居民的村落，卻把大量土地預留給原居民蓋丁屋，你們欺負人！

新界原居民忍不住了，說：蓋丁屋是我們的傳統，當年我們把永久業權的地給了政府，換來的是有使用年限的地契，虧吃大了，英國人都答應給我們土地蓋丁屋，現在特區政府倒要反悔，我們堅決反對！你們政府手上那些高爾夫球場，為什麼不用來蓋房子啊？你看人家新加坡都把高爾夫球場改建成組屋了！

政府說：人家新加坡有十八個高爾夫球場，少一個沒什麼了不起的，我們香港加起來才五、六個，都蓋成房子，商務活動連個球都沒得打，香港的競爭力還要不要啊？要不我們考慮把一部份郊野公園改成建設用地吧！

看到環保分子又出來反對，有人出來幫政府說話：我看你們這些環保分子其實是“地產霸權”的代言人，你們就是要阻止土地供應，維持高地價，讓地產商得利，你看人家新加坡的保護區占地也就不到10%，香港郊野公園占了40%，有必要那麼多嗎？其實只需要拿2.5%的郊野公園面積就夠容納100萬人。

行山愛好者不幹了，說：郊野公園改規劃？想都不要想，想想都是罪過！你退一寸，他們就會進一尺，我們一定阻止立法會修例！又不是沒地，那些大發展商手上大把的空置農地，你們不敢學新加坡收地！

發展商說了：香港不是野蠻社會，而是法治社會，強征我的農地是行不通的，法庭上見！補地價？補地價倒是可以，但是補得也不能太高，要不咱們就搞公私合營也行。政府說：我看行！

第二天某些日報又大字標題：官商勾結，地產霸權豈能得逞！

政府：那麼，我們還是說說填海吧……（重複第一段）』

8. 現在起碼要即時多管齊下，在土地專責小組的十八個選項中，找幾個可行性較高的短期規劃先行，以解中、低下階層市民之窘。再快快研究香港團結基金提議的2,200公頃「強化版東大嶼都會」這個較遠期的填海規劃；一定唔可以再拖。

Regards,

George Luk

Dear sir

I live in Wonderland villas in kwai chung. We have a 2 floor shopping mall that occupied large area. However probably due to low density of residents, many shops that are created in the mall went out of business after a short tenure. I think if someone take down the shopping mall and build a residential building on top of the shopping mall, the land is not wasted and possibly shops beneath it can sustain longer

Dear Sir / Madam,

RE: Public Consultation on Policy Review of Private Recreational Leases (PRLs) & Task Force on Land Supply

I am a member of the Hong Kong Cricket Club and the Aberdeen Boat Club. They are those of Private Sports Clubs continue to play a vital role in sporting development in Hong Kong.

Over the years, the Hong Kong Cricket Club provides training and matches to promote various sports including cricket, tennis, squash, ruby etc and the Aberdeen Boat Club provides training and racing for various water sports and sailing competitions. I am very concerned should there be any major policy changes that could seriously alter the scene. My views on the above two consultation papers are:

[REDACTED]

"Task Force on Land Supply": I agree that there is a pressing need for the government to increase land supply for housing. However the use of private recreation clubs' land for housing as proposed in the 'Task Force on Land Supply' public consultation proposal is considered unrealistic. Most of the land held by the private recreation clubs is not easily accessible by public transports and they are not within the residential zone plan. In fact, the private creative clubs can help to reduce population density and provide recreational space and sporting facilities to the community. Hong Kong is a world city. What is a world city, if it does not support top class sport facilities?

Thank you for considering my responses.

Jan Henderson's suggestions on Land Supply - Country Parks should never be an option for development

22/08/2018 23:59

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Jan Henderson

優先使用棕地，守護自然郊野及郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。 這將有助釋放土地資源。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個 涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港市民難得的叫氣地方。

因為我們要尊重大自然。 希望土地供應小組聆聽民意，促請政府改善規劃，令市民真正安居樂業。 萬分感謝！

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

因為郊野公園就是郊野公園，沒有所謂邊陲地帶。請土供組回應香港人的訴求，優先發展粉嶺高球場，解決基層上樓問題。敬祝安好！

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,

愛護自然，不應發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。 因為政府有責任全面規劃棕地，更有效運用珍貴的土地資源。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個 涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港市民難得的叫氣地方。

改善規劃，用好棕地

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。 因為棕地可以快速解決公營房屋需求。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性 選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

因為郊野公園是香港市民難得的叫氣地方。 本人希望土地供應小組向政府反映本人意見，保護香港的自然環境。 感謝！

Margit Hennig's suggestions on Land Supply - Country Parks should never be an option for development

22/08/2018 19:23

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Margit Hennig

Greg Ladner's suggestions on Land Supply - Country Parks should never be an option for development

22/08/2018 17:26

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Greg Ladner

請不要發展郊野公園邊陲地帶兩個試點及其他邊陲地帶地點

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府必須優先使用棕地和私人遊樂場地契約用地，有研究已經指出，香港的棕地及粉嶺高爾夫球場等已經足以應付香港未來的房屋需求。

因為政府有責任全面規劃棕地，更有效運用珍貴的土地資源。

政府必須停止研究發展郊野公園邊陲地帶兩個試點及其他邊陲地帶，亦不應考慮兩個涉及維港以外填海的中長期土地選項，農地發展亦須小心看待，因為郊野公園是香港市民難得的叫氣地方。

因為我們不能犧牲郊野公園的重要生態和生物。懇請土地

Wing Li's suggestions on Land Supply - Country Parks should never be an option for development

22/08/2018 16:03

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Wing Li

Vivian Chun's suggestions on Land Supply - Country Parks should never be an option for development

22/08/2018 15:01

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Vivian Chun

政府必須停止研究發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。 因為政府應糾正棕地零亂擴散的現象，好好規劃。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性 選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

因為其他選項已經足夠。 本人期望土地供應專責小組能真的能保護我們的環境，也能讓市民安居樂業。 順祝 國泰民安！

請停止研究開發郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

因為政府有責任全面規劃棕地，更有效運用珍貴的土地資源。

政府不應發展郊野公園兩個試點作為中長期選項，不應研究郊野公園邊陲地帶其他地點，亦不應考慮在維港以外填海，因為填海將破壞海洋生態。

優先使用棕地，守護自然郊野及郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府必須優先使用棕地和私人遊樂場地契約用地，有研究已經指出，香港的棕地及粉嶺高爾夫球場等已經足以應付香港未來的房屋需求。

因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

22/08/2018 12:26

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

優先發展棕地，無須發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府必須優先使用棕地和私人遊樂場地契約用地，有研究已經指出，香港的棕地及粉嶺高爾夫球場等已經足以應付香港未來的房屋需求。

因為棕地欠缺規劃及管理，若能善用，相信可以應付急切的房屋需求，為香港提供土地資源。

政府不應發展郊野公園兩個試點作為中長期選項，不應研究郊野公園邊陲地帶其他地點，亦不應考慮在維港以外填海，因為填海將破壞海洋生態。

這是因為大自然也是市民優質生活的重要元素，必須保護。 希望土地供

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;

先用棕地，糾正規劃問題

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。 因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

因為填海將破壞海洋生態。 本人希望土地供應小組向政府反映本人意見，

保護香港的自然環境。 謝謝！

政府必須優先使用棕地和私人遊樂場地契約用地，有研究已經指出，香港的棕地及粉嶺高爾夫球場等已經足以應付香港未來的房屋需求。

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局必須首先善用棕地，及私人遊樂場地契約用地，釋放現有的土地資源。 因為棕地有 723 公頃，更能有效為基層提供房屋需求。

Florence Hong's suggestions on Land Supply - Country Parks should never be an option for development

22/08/2018 08:04

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Florence Hong

善用棕土，不應發展郊野公園邊陲地帶和填海

郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶），及在維港以外近岸及東大嶼填海，不能被視為增加土地的選項，當局亦應小心處理農地等其他天然資源，因為我們要尊重大自然。

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局須優先利用棕地，還有私人遊樂場地契約用地，這將提升香港土地的使用效率。 這將提升香港土地的使用效率。

當局不應發展郊野公園邊陲地帶（不論是作為中長期選項的兩個試點，或作為概念性 選項），亦不應在維港以外近岸填海及發展東大嶼都會，對於發展農地也須謹慎處理，因為這些選項都會為香港的生態環境和天然資源帶來不能逆轉的破壞。

土地供應的選項不應包括填海和郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府必須優先使用棕地和私人遊樂場地契約用地，有研究已經指出，香港的棕地及粉嶺高爾夫球場等已經足以應付香港未來的房屋需求。

因為棕地同樣是珍貴的土地資源，政府必須規劃分配。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

Public Consultation on Policy Review of Private Recreational Leases (PRLs) & Task Force on Land Supply

Dear Sir / Madam

RE: Public Consultation on Policy Review of Private Recreational Leases (PRLs) & Task Force on Land Supply

Private Sports Clubs continue to play a vital role in sporting development in Hong Kong as similar to their peers in any other modern cities in the world. While there are major issues on land supply for housing in the territory, the government should not choose the wrong approach to react by overdoing any major policy change on supporting private sports club facilities which will at the end severely jeopardise the contributions of private sports club to the sports development in Hong Kong.

My views on the above two consultation papers are:

[REDACTED]

"Task Force on Land Supply": I am of the view that the Government should make every effort to increase housing capacity through land reclamation and investing in infrastructure to enable the use of unused land capacity. However, sacrificing the private sports clubs to address housing needs cannot be a wise decision nor an approach that meet global standards in terms of city and land use planning, benchmarking any other parts of the world.

Thank you very much for your kind attention.

Yours sincerely,

Vincent Ma

Dear Sir / Madam

RE: Public Consultation on Policy Review of Private Recreational Leases (PRLs) & Task Force on Land Supply

Private Sports Clubs continue to play a vital role in sporting development in Hong Kong. I am very concerned should there be any major policy changes that could seriously alter the scene.

My views on the above two consultation papers are:

[REDACTED]

"Task Force on Land Supply": It is not appropriate to re-designate PRL land for residential construction. The amount of land is relatively insignificant and the negative impact on life in HK would be material. The alternative sources of land are superior.

Others: Given the development in Guangdong Province on the borders of the New Territories, the best approach is to develop more land in the NT and ensure that the transport communications in both directions (to Kowloon and to the Mainland) are built to service these developments.

Thank you for considering my responses.

Yours sincerely,

Vincent Warner

For the HKSAR Government's Task force on Land Supply

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should **never** be an option for development (whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

My views on the above two consultation papers are:

[REDACTED]

"Task Force on Land Supply": The task force has a duty to look at every idea for creating spaces for new residential areas in HK. I do think however that investigating the re-use of large industrial buildings should be considered first as many other cities have done in the past. This would regenerate existing communities and be a much greener way of reusing the existing built environment.

Thank you for considering my responses.

Yours sincerely,

Penny Hubbard-Brown

用地建議

沙田文化中心附近是大片地方，交通方便，
雖然有很多路，但若要建大廈，（若環境、地質可行）

可考慮高架大廈、甚至留空或連接文化中心，在其上建哩，因為其四周都是空曠地。

棄供

23/08/2018 12:28

From:

To:

tfls@devb.gov.hk

要供？那為什麼要棄？
城內被荒廢、擱置、棄存的政府物業很多很多！
工業的也很多很多！
這不是公義的問題，
這是問責的問題。
要是沒有人負責，
就證明香港處於無政府狀態！
香港只是在一個大公司制度下營運！
所以無意聽取民意！
也管不着市民各階層的需要。
只管打造品牌式的項目！

我建議

- 1.立法保障人均居住面積
- 2.本地出生的香港人父母有權為兒女供房產購買權證，成年時即可選購地產商發展的房屋或政府建的房屋自用。
- 3.立即規限內地人移居香港的人數直至人口政策完善！

強烈反對發展郊野公園

23/08/2018 12:01

From:

██████████

To:

"tfls@devb.gov.hk" <tfls@devb.gov.hk>

致土地供應專責小組,

本人 Iris Shum 現來信表示強烈反對發展郊野公園(不論是否邊陲). 原因如下:

1)在我國習主席的偉大領導下, 如今中國已將很多綠色地帶改劃為國家公園, 若香港堅持盲目發展郊野公園, 會有損一個中國共同方向發展的大原則. 而香港郊野公園路徑及規劃完善, 若大興土木, 實在浪費.

2)要開發土地不應只看香港, 大灣區機會處處, 煩請先考慮開發大灣區.

3) 香港郊野公園受"郊野公園條例"保護, 發展的大前提是發展目的為"鼓勵康樂與旅遊目的", 並非住屋供應. 貴局若堅持發展, 定必又實施人大釋法或改列. 實為全球笑話.

4) 為何廣大市民可以使用的設施(如郊野公園, 屯門歷奇公園)貴局就重複要求市民放棄, 應開發, 不要執著; 但對於有錢人才可使用的設施(如上水香港高爾夫球會)便叫市民不用考慮, 怎樣也不會開發?

5) 古人把靚景靚地規劃作國家公園(郊野公園), 因有感大自然是全世界的人的, 不是這一刻的人類應該欣賞, 而是未來子孫也可以欣賞, 強硬發展郊野公園是一個低智慧的決定. 若強行發展, 我祝福你們子孫還可以呼吸新鮮空氣.

6) 貴局今日表態為解決房屋問題發展郊野公園邊陲, 明日難保表態發展郊野公園全部, 再明日難保表態發展墳場. 使香港人每日擔驚受怕.

7) 解決房屋問題, 是人口過多, 空置房屋過多, 丁屋棕地完全沒有規劃.

暫先訴諸以上觀點. 謝謝.

Iris Shum

建造香港夢：智慧城市 2.0

不做內港擠迫戶，
走向東、走向西，創造新香港特區

三維空間發展：借海，擴地，用天空
忘記東大嶼，不要做擠迫戶式的內海。

長、中、短期增加土地/樓宇供應

1 借海

新香港：智慧城市規劃

中央借海，填大嶼西南。

接駁港珠澳大橋、融合大灣區

填海面積無限大

可以用前海模式管理

2 擴地

填香港東：銜接將軍澳，建橋到港島東

伸手入大洋，保持航道，東西平衡發展

亦可考慮鴨脷洲模式，保育東龍島：保留環島海面，從填海區，搭雙橋接連東龍島+
向東再填海，

3 用天空

保留綠化地

室內運動場、室外網球場，街市等等=單幢樓、地下商場+低層/天台運動場

十八區，區區都有；多數好地點

中產租住屋：市值租 50%；定條件，有限期租約：5+5 年租約，約滿前，資查審查；

不再有世襲制度

早幾個月同劉晨談過，他亦有發表問中央借海

劉晨

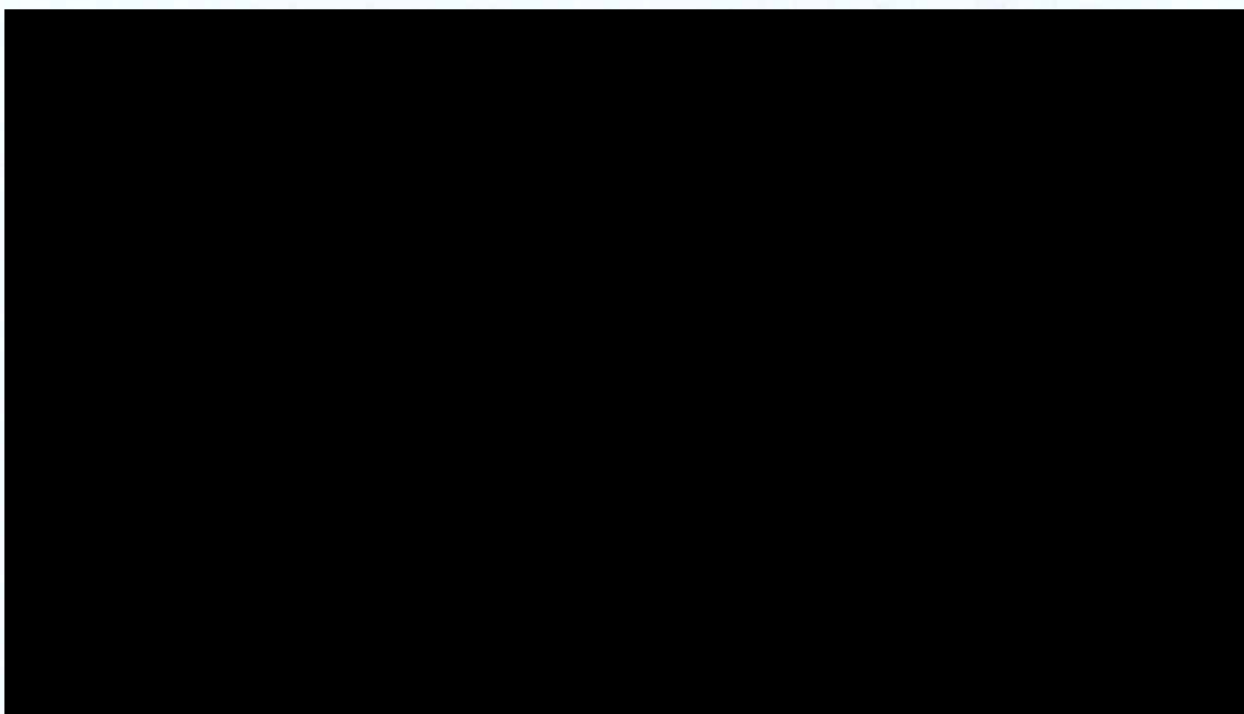

我叫劉晨，唔係樓神，

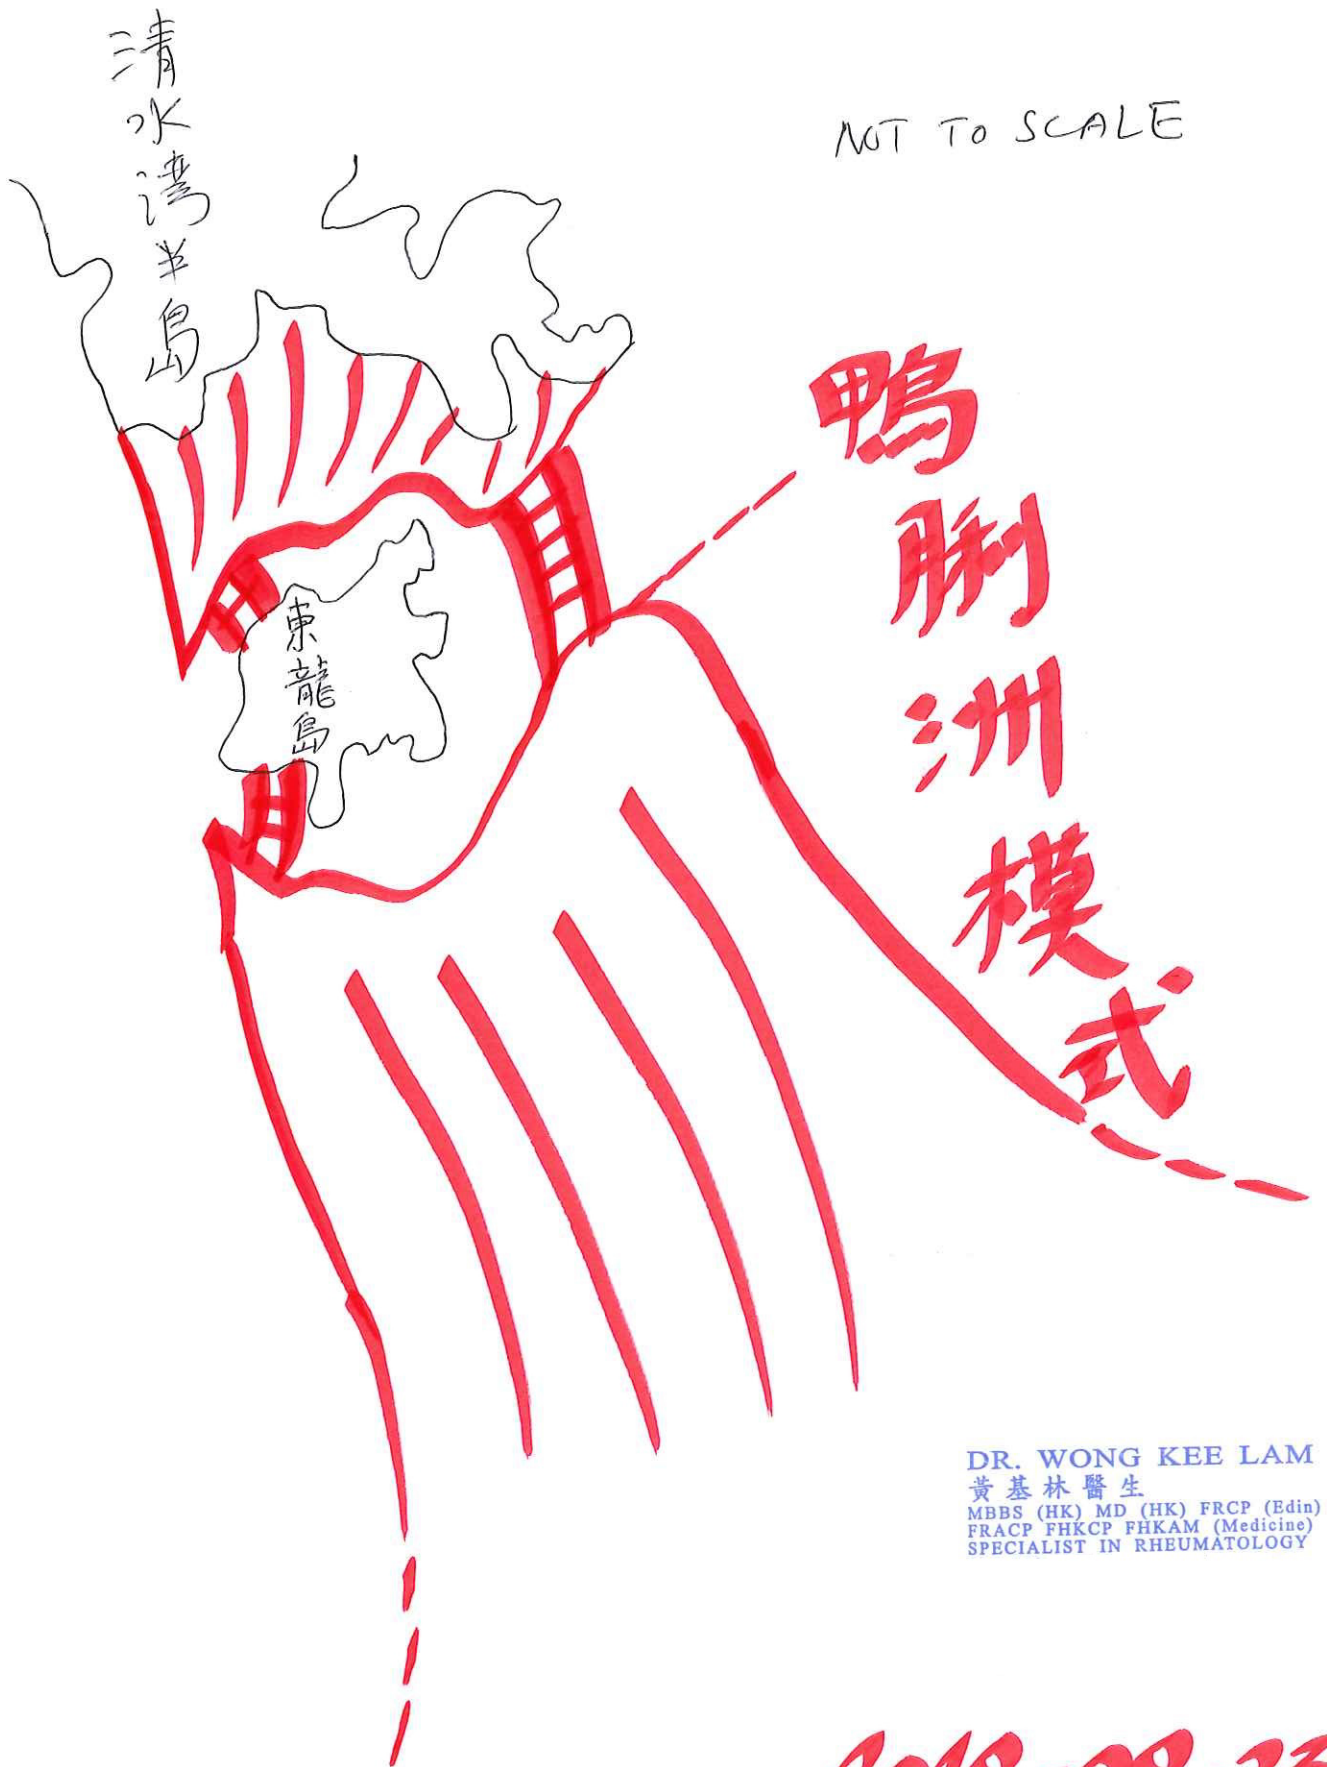

只想大家買賣物業時留神，

以免頭痕。

優先發展棕地，無須發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局必須首先善用棕地，及私人遊樂場地契約用地，釋放現有的土地資源。 這將有助釋放土地資源。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

Sylvain DUFOUR's suggestions on Land Supply - Country Parks should never be an option for development

23/08/2018 23:47

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Sylvain DUFOUR

郊野公園邊陲地帶和填海都不應成為發展和土地供應的選項

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見：

政府應先用好棕地資源，及私人遊樂場地契約用地，因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

因為棕地有 723 公頃，更能有效為基層提供房屋需求。

郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶），及在維港以外近岸及東大嶼填海，不能被視為增加土地的選項，當局亦應小心處理農地等其他天然資源，因為我們要尊重大自然。

因為我們不能犧牲郊野公園的重要生態和生物。請土供組回應香港人的

訴求，優先發展粉嶺高球場，解決基層上樓問題。祝 安好！

改善規劃，用好棕地

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 棕地和私人遊樂場地契約用地，必須被選為優先選項，這將有助釋放土地資源。 因為粉嶺高爾夫球場和棕地等已經足以應付香港未來的房屋需求。

當局不應研究在郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶）興建房屋，也不應考慮在維港以外近岸和東大嶼填海，其他天然資源（例如農地）亦要謹慎看待，因為我們不能犧牲郊野公園的重要生態和生物。

因為郊野公園是香港市民難得的叫氣地方。 衷心希望土地供應小組接納意見，

要求政府改善規劃，保護珍貴的自然環境。 順祝 台安！

Stephanie che's suggestions on Land Supply - Country Parks should never be an option for development

23/08/2018 20:55

From: [REDACTED] To: tfls@devb.gov.hk

For the HKSAR Government's Task force on Land Supply

I feel very strongly that Hong Kong should not develop its country parks and am hereby submitting my feedback for the Task Force on Land Supply's public engagement as follows:

- The government should absolutely prioritise the development of brownfields. Studies have shown that there is more than sufficient land from brownfields to meet Hong Kong's housing needs;
- Country parks and their peripheries, as well as land reclamation should never be an option for development(whether short-term, mid-term, long-term or conceptual). Other areas of natural resources (such as farmland) should also be approached with extreme caution because these options will cause irreversible harm to Hong Kong's environment and natural resources;
- I earnestly request the SAR government to take a bold step forward and finally resolve Hong Kong's enduring and unjust land-planning problem.

I kindly request the Task Force on Land Supply to convey my views to the government departments responsible, so that Hong Kong can pursue a land development model that is sustainable, has integrity and will benefit everyone.

Sincerely yours,
Stephanie che

優先發展棕地，無須發展郊野公園邊陲地帶

就 貴小組針對香港未來土地供應的公眾諮詢，本人謹此表達以下意見： 當局必須首先善用棕地，及私人遊樂場地契約用地，釋放現有的土地資源。 因為棕地可以快速解決公營房屋需求。

郊野公園邊陲地帶（包括兩個試點和其他邊陲地帶），及在維港以外近岸及東大嶼填海，不能被視為增加土地的選項，當局亦應小心處理農地等其他天然資源，因為我們要尊重大自然。
