Other Remarks a. For installations, consideration must be given to the loading capacity ar	d
point of weight. If additional support is necessary for any of the Furn	ture,
all the relevant cost of the support including necessary shoring for	
excavation should be covered by the commissioning budget.	
b. During dismantling after display, the winning teams are required to rein	state
the locations back to the states before the Furniture are installed. All t	
relevant costs of the reinstatement works should be covered by the	
commissioning budget.	
c. Materials used for the Furniture should comply with the building, health	l
regulations and safety standards.	
d. Due regard should be given to safety, ergonomics and height design of	
facilities if especially for use by children or people with special needs.	
e. The pedestrian flow shall not be obstructed. Footpath with minimum	
2000mm clear width shall be maintained;	

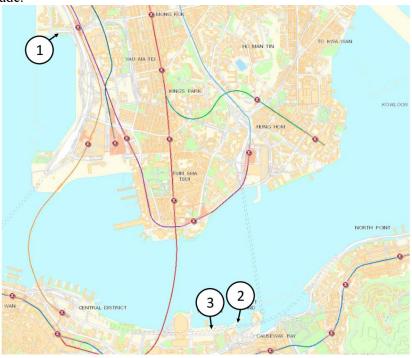

Note: Materials and information provided are for reference only and are subject to change without further notice. Sketches, drawings and images are not necessarily drawn to scale.

^{*} For Furniture to be affixed onto a wall, the design has to take into consideration the structure of the wall and of the mounting support (if applicable), as well as the load-bearing areas of the wall.

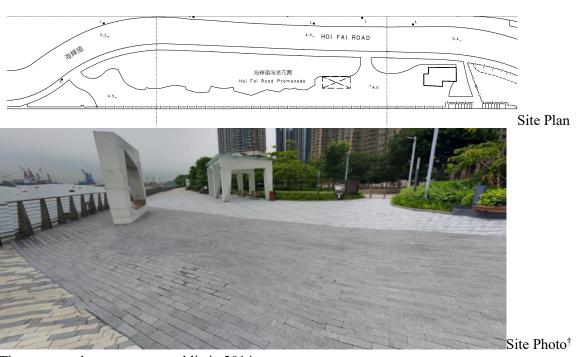

Installation Locations of Public Furniture

Each Participant may submit no more than two separate Proposals for the public furniture to be installed at the

following promenade.

1. Hoi Fai Road Promenade

The promenade was open to public in 2014.
