# LOW CARBON CONCRETE TROPHY COMPETITION 2022

The objective of the Low Carbon Concrete Trophy Competition 2022 aims to arouse the awareness and interest of stakeholders in the construction industry towards the benefits of low carbon concrete produced using GGBS. The participants are required to design a mix of low carbon concrete using GGBS to achieve the highest relative score, in terms of:

Strength  
& Durability

Environmental  
Friendliness

Cost  
Effectiveness

The competition has two categories, viz. the Students Category and the Practitioners Category. It will provide an excellent platform to reveal the potential of a new generation of concrete for Hong Kong and for the industry practitioners to demonstrate the practical application and benefits of low carbon concrete in projects.

Prize presentation will be held on 10 November 2022 following the SCCT Annual Concrete Seminar 2022.

Registration  
Deadline :

Now Extended

## 31 May 2022
