Current forecast	7,510.000 7,510.000	mid 2016 Q1/2022	mid 2030 2038	<p>Northeast New Territories (NENT) landfill has been receiving less waste than forecast since the implementation of waste diversion from SENT in January 2016. As landfilling spaces are valuable resources, the NENT landfill would be filled to its full capacity.</p> <p>Review on the implementation programme of NENT Landfill Extension (NENTX) was underway, taking into consideration the filling rate of the existing NENT landfill; the waste distribution amongst the three landfills; and the need to maintain continuity of waste disposal service in transition from NENT to NENTX. Based on our current estimates, the delayed project commencement will not jeopardize the succession of NENT landfill. Therefore, the commencement date of NENTX has been revised to Q1 of 2022 whereas its anticipated completion date has been revised to 2038.</p> <p>The Contract was awarded on 25 January 2022 and preparatory work is underway.</p>

The Government land allocation for the extension project was granted by District Lands Office/Sai Kung on 27 December 2018. The required site was handed over from CEDD to EPD on 31 December 2018. The preparation works commenced in October 2018. Due to the COVID-19 pandemic, the progress of works was delayed in 2020. The contractor had actively implemented various mitigation measures in order to catch up the original programme as far as practicable. Part of the extended landfill was commissioned on 21 November 2021 upon granting of some 4 months extension of time due to COVID-19 pandemic and inclement weather.</p> <p>Some remaining landfill formation works are on-going which is targeted for completion in early 2023. Restoration works will be carried out in phases throughout the landfill operation period, where the last phase is scheduled for completion in around 2028 subject to the actual waste intake.</p>

Current forecast	19,203.700 19,203.700	2016 – 17 12/2017	2022 – 23 Q2/2025	<p>The Design-Build-Operate contract for the project was awarded in November 2017 and its design and construction works commenced in December 2017. Works were about 40% completed. According to the latest programme of the contractor, the IWMF Phase 1 will be commissioned in 2025.</p> <p>IWMF Phase 1 is to be constructed on an artificial island off Shek Kwu Chau. Reclamation works started in late December 2018 for completion by 2022. In addition, fabrication of incineration modules and the steel structure erection works are being carried out in the Mainland prefabrication yard. Up to end of June 2022, around 11 months of extension of time (EOT) was granted due to inclement weather and COVID-19 pandemic. To catch up, the Contractor has increased labour resources for both the steel structure erection works in the Mainland prefabrication yard and the piling works at the Artificial Island. As a result, the progress of piling works at the Process Building was on schedule and the completed areas were handed over for construction of pile cap in stages. The current contract completion date for the works remains in June 2025.</p>

Project No.	Project Title		Project Estimate (\$M)	Project Start Date	Project Completion Date	Notes on Progress of Project and variance in project estimate, start date and completion date
						<p>The variance between “Approved by F.C.” and “Current forecast” for project start date and completion date is mainly due to additional time for variation of environmental permit and change in marine works methodology which pushed back the commencement of design and construction by 11 months (from 2016-17 to actual starting date to Dec-2017). Furthermore, an additional of 23 months as a result of the extension of contractual period by 12 months taken into account of tender review/tenderer’s comments and 11 months extension of time (e.g. 261.5 working-days) granted so far due to effect of COVID-19 and inclement weather mainly on marine works. Hence, a total of nearly three years is added to the completion date approved by F.C. (2022-23) which the latest completion date is now Q2/2025.</p>

Current forecast	2,453.000 2,453.000	Q1/2019 09/2019	Q4/2021 2024	<p>As at 30 June 2022, the Design and Works were about 62% completed.</p> <p>The project commencement was revised due to the delay of obtaining funding approval to 28 June 2019. The delay in project commencement has led to a consequential delay in project completion. The Design-Build-Operate contract was awarded in August 2019, and the Design and Works commenced in September 2019. Based on the latest programme, O-PARK2 is scheduled for commissioning in 2024.</p> <p>The original period for the Design and Works was 33 months. Delay in design, equipment procurement &amp; delivery, civil and E&amp;M works has been caused by COVID-19 pandemic in Europe (2020), Hong Kong (2020 – Q1 2022) and Mainland (Q2 2022). We had granted an extension of time of 275.5 days on COVID-19 pandemic, tropical cyclone signal number 8 and additional design enhancement works.
