5163DR	Northeast New Territories landfill extension	Approved by F.C. Current forecast	7,510.000 7,510.000	mid 2016 Q1/2022	mid 2030 2038	<p>Northeast New Territories (NENT) landfill has been receiving less waste than forecast since the implementation of waste diversion from SENT in January 2016. As landfilling spaces are valuable resources, the NENT landfill would be filled to its full capacity.</p> <p>Review on the implementation programme of NENT Landfill Extension (NENTX) was underway, taking into consideration the filling rate of the existing NENT landfill; the waste distribution amongst the three landfills; and the need to maintain continuity of waste disposal service in transition from NENT to NENTX. Based on our current estimates, the delayed project commencement will not jeopardize the succession of NENT landfill. Therefore, the commencement date of NENTX has been revised to Q1 of 2022 whereas its anticipated completion date has been revised to 2038. The Contract was awarded on 25 January 2022 and construction works commence on 1 December 2022.</p>

The Government land allocation for the extension project was granted by District Lands Office/Sai Kung on 27 December 2018. The required site was handed over from CEDD to EPD on 31 December 2018. The preparation works commenced in October 2018. Due to the COVID-19 pandemic, the progress of works was delayed in 2020. The contractor had actively implemented various mitigation measures in order to catch up the original programme as far as practicable. Part of the extended landfill was commissioned on 21 November 2021 upon granting of some 4 months extension of time due to COVID-19 pandemic and inclement weather.</p> <p>Some remaining landfill formation works are on-going which is targeted for completion in early 2023. Restoration works will be carried out in phases throughout the landfill operation period, where the last phase is scheduled for completion in around 2028 subject to the actual waste intake.</p>

Current forecast	851.800  851.800	Q2/2018  07/2018	Second half of 2023 Q4/2023	<p>IWMF Phase 1 is to be constructed on an artificial island off Shek Kwu Chau. Reclamation works started in late December 2018 for completion by 2022. In addition, fabrication of incineration modules and the steel structure erection works are being carried out in the Mainland prefabrication yard. Up to end of September 2022, around 11.5 months of extension of time (EOT) was granted due to inclement weather and COVID-19 pandemic. To catch up, the Contractor has continuously increased labour resources for both the steel structure erection works in the Mainland prefabrication yard and the piling works at the Artificial Island. As a result, all piling works for chimney and boiler &amp; flue gas treatment areas in Process Building were completed. The pile cap construction at Module 1 boiler area was also near completion. At Zhuhai prefab yard, steel erection for 11 out of 12 E&amp;M prefab units had reached the top level, and the electrical &amp; instrumentation installation works had also commenced. In addition, steel material of structure steelworks for Process Building was being delivered to Artificial Island for erection on site. The current contract completion date for the works is fixed in July 2025.</p> <p>The works were entrusted to CEDD which commenced in July 2018.</p> <p>Works were about 74% completed in end September 2022. Mini-piles and pile cap construction, and steel column erection for the noise barriers were in progress. Due to unforeseen underground utilities/ structures, some critical construction works had been delayed.</p>
