

HIGHWAYS DEPARTMENT CONSTRUCTION COST INDEX (HyD CCI)

路政署建造成本指數

| YEAR 年份 | MONTH 月份 | HyD CCI 路政署建造成本指數 |
|------------|-------------|----------------------|
| 1998 | 10 | 818.3 |
| | 11 | 821.4 |
| | 12 | 821.1 |
| 1999 | 1 | 820.2 |
| | 2 | 819.1 |
| | 3 | 818.7 |
| | 4 | 818.5 |
| | 5 | 815.2 |
| | 6 | 817.3 |
| | 7 | 822.6 |
| | 8 | 825.0 |
| | 9 | 825.0 |
| | 10 | 830.8 |
| | 11 | 831.1 |
| | 12 | 830.2 |
| 2000 | 1 | 830.0 |
| | 2 | 831.4 |
| | 3 | 838.9 |
| | 4 | 844.2 |
| | 5 | 844.0 |
| | 6 | 840.5 |
| | 7 | 844.1 |
| | 8 | 851.5 |
| | 9 | 854.8 |

The Highways Department Construction Cost Index (HyD CCI), which was retitled from HyD plant index in January 1989, is a monthly index compiled by Highways Department as a means of relating the cost of highways works at current prices to those at November 1975. The HyD CCI is the total of 60% of the average Material Index and 40% of Labour Index published monthly by the Census & Statistics Department.

路政署設備指數在一九八九年一月改稱為路政署建造成本指數。這項指數由路政署每月編訂一次，以便把道路工程成本的現時價格與一九七五年十一月的價格作一比較。路政署建造成本指數由統計處每月發表的平均材料指數和工資指數組成；前者佔60%，後者40%。
