

Standing Committee on Concrete Technology (SCCT)

About Us

- **formed in 1982**
- **Overseeing specifications and standards, testing and maintenance, performance control, research & development, etc. on applications of concrete**

About Our Work

- **Currently reviewing the concrete-related standards, including aggregates, control of ASR, use of GGBS, local construction standards CS1 & CS2, etc.**

About This Event

- **Theme: Concrete Repair & Strengthening**
- **Growing demand on enhanced structural durability, extended service life, added aesthetic values of concrete structures**
