“3(e) Standard documents such as the General Specification and the SMM are updated/amended from time to time. The amendments are sometimes done by way of corrigenda. These amendments/corrigenda are usually available from the internet. Where these are available, the tenderers’ attention should be drawn to the specific websites. Otherwise, the amendments and corrigenda shall be incorporated in full in appropriate places in the tender documents. For example, they could be included as an appendix to the standard documents where these documents are included or where only references to the documents are made as an appendix to such references.”
